### Allies To Study Air Training At Ottawa Meet

Public interest in the United Nations Air Training Conference opening at Ottawa, Monday, is reported mounting as leading servicemen, technical experts and diplomats of a score of countries converge on the capital. Representatives of three governments which were among the earliest to announce their delegations are shown above, left to right: Baron Silvercruys, Belgian minister to Canada, who will be accompanied by Lieut. Andre Wodon, of the Belgian Department of National Defence, London; Col. Ole Reistad, commanding officer of the Royal Norwegian Air Force, Air Training Command at Little Norway, Toronto, who will be associated with Daniel Steen, Norwegian minister to Canada, and Sir William Glasgow, Australian High Commissioner to Canada.

WASHINGTON, May 15.—(AP)—The war department announced yesterday that the army, on instructions from President Roosevelt, is taking over actual operation or control of all United States domestic air line planes, numbering more than 300.

**"All routes and services not regarded as essential to the war program will be terminated," the war department said.**

Only last month an arrangement was worked out for the air lines to divert one-fourth of their planes to the army as carriers of soldiers and military cargo.

The new program provides, however, for war use of the country's entire commercial air fleet in these ways:

1—A "substantial proportion of the available flight equipment" will be transferred outright to the army air forces for operation by army personnel.

2—The air lines themselves will convert approximately 70 ships into cargo carriers, to be operated by air line personnel under contract for the air forces.

3—The remaining planes, aggregating about half those now in commercial service, "will until further notice rontinue to be owned and flown by the air lines, but will be considered always available for emergency military missions."

## Air Training Meet To Seek Pooling Of Allied Strength

By NORMAN M. MACLEOD

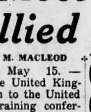

OTTAWA, May 15. — (BUP) — The United Kingdom delegation to the United Nations air training conference arrived in Canada today at Dorval airport, near Montreal, it was announced by the bureau of public information.

**The leader of the Old Country delegation, Captain H. H. Balfour, parliamentary undersecretary for air, was not with the party, being at present in the United States.**

Balfour is scheduled to arrive in Ottawa Saturday.

Air Minister C. G. Power intimated today that the conference here next week will aim at a plan of close co-ordination that will yield all the formidable advantages, and avoid all the difficulties, of an all-out pooling of Allied air strength.

"There are obvious difficulties of language and national pride of that stand in the way of a complete pooling of the air crews that we train," Major Power told correspondents, and added:

MACLEOD

**"But it should be possible to work out some way whereby, making all due allowances for such difficulties of language and natural considerations of national pride, we shall get the greatest possible co-ordination of our effort, first in the training of aircrews, and, secondly, in the use that is made of them after they are trained."**

The air minister stated that while next week's conference will not open formally until Tuesday, it will actually get down to business on Monday.

The delegates will arrive on Sunday, he said, and Monday will be fully occupied in meetings and consultations.

Some 80 delegates representing 11 of the United Nations are expected to be present.

The United Kingdom delegation arriving today included almost the entire technical and advisory staffs of the Air Ministry.

In the party, which numbered more than a score, were Air Marshal P. Babington, air member for personnel; Air Marshal A. G. Garrod, air member for training; Sir John Abraham, deputy undersecretary of state for air; Air Vice-Marshal L. D. D. McKean, head of the United Kingdom air liaison mission; Air Vice-Marshal L. N. Hollinghurst, director-general of organization, and Group Captain D. V. Carnegie.

## Independents Will Discuss By-Election

**Meeting at the Palliser Hotel, Saturday, the general executive of the Independent Citizens' Association will discuss the by-election to fill the vacancy in the legislature caused by the death of D. M. Duggan, Independent, Edmonton, it was reported here Friday.**

It was learned in reliable circles Thursday that the by-election may not be held until early fall.

The association's executive is expected to issue a statement on the by-election situation following the Calgary meeting.

Another major item to be dealt with at the conference is the choice of a permanent president and vice-president of the association, as well as a secretary-treasurer.

The four vacancies on the 19-member executive may also be filled.

Those who have already left for the Calgary meeting are Alfred Speakman, M.L.A., house leader for the Independents, and W. Kelly Porter of Edmonton, who are both executive members. Others who will attend are J. Percy Page, M.L.A., Edmonton, and George MacLachlan, M.L.A., Pembina, Provincial chairman of the executive, S. C. Heckbert, Vermilion, is also expected to attend.

## Quebec Liberal Group To Oppose Act Amendment

**OTTAWA, May 15.—(CP)—Following a meeting of a group of Quebec members of parliament today Maurice Lalonde (Lib., Labelle) issued a statement stating that the members who supported Hon. P. J. A. Cardin in his attitude on conscription for overseas service will vote against the amendment to the National Resources Mobilization Act now before the House.**

The amendment would remove the limitation in the Act which prohibits the sending of compulsory service men outside of Canada.

Mr. Cardin resigned from the cabinet in protest against amendment of the Act so soon after the April 27 manpower plebiscite and before the situation had changed materially.

**OPINION UNCHANGED**

Following is an unofficial translation of the statement released by Mr. Lalonde after a meeting of a group of Quebec members held here today:

"Almost all the Liberal members from the province of Quebec continue to support Mr. Cardin in declaring that their opinion has not changed despite the resolution of Ernest Bertrand, member for Laurier (Montreal), adopted at a Liberal caucus some days ago.

"Moreover, that resolution admitted a divergence of opinion concerning the policy of the federal government.

"Thus the members from Quebec and other provinces who have already approved Mr. Cardin's attitude are determined to vote in the House against the proposed law which includes the principle of conscription for overseas service."

## Italy Thinks Best Way To Win War Is To Lose

*LISBON, May 15.—(BUP)—It's a funny way of putting it, but the Italians believe their best chance of winning the war, is to lose it first.*

**That's the report of Sergeant Cecil Cross, a former American Air Corps attache at Rome, one of a group of Americans waiting to be exchanged for Axis nationals.**

In other words, the Italians believe they'll get a better break at the peace table, if the Allies are dictating the terms, than if their Axis partner, Germany, wins.

Cross said the Italians are looking for the war to end next December.

The hungry Italians have just been told they'll have to increase their contribution to Hitler's war machine. Drastic new taxes and a curtailment of all non-war expenditures have been announced by the Italian finance minister.

The government financiers have developed a new technique for obtaining more money. They'll allow the middle classes to buy merchandise now for delivery after the war.

## Ration Of Gas In Maritimes Drastically Cut

**OTTAWA, May 15.—(CP)—Drastic reduction in the amount of gasoline available to motorists in the three maritime provinces was announced today by Munitions Minister Howe.**

The gasoline ration unit, originally worth five gallons of gasoline, now is worth only two gallons in Nova Scotia, New Brunswick and Prince Edward Island.

The reduction in unit value goes into effect at midnight tonight.

No change is made in the unit value in other parts of Canada.

"The rising demand for crude oil on the east coast and the seriousness of tanker sinkings have precipitated a serious shortage in New Brunswick, Nova Scotia and Prince Edward Island," said Mr. Howe.

**NO ALTERNATIVE**

"We are moving oil from western Ontario and Montreal to the maritimes as fast as possible but it is physically impossible to move it fast enough to meet the needs on the basis of the five-gallon unit.

**"There is therefore, no alternative but to reduce the allowance in these three provinces.**

"It is to be hoped, however, that so drastic a reduction may be only temporary."

## *An Editorial*
## No Need For Increase

THE transportation committee of the city council does well to reject the proposal that Edmonton's street car fares be increased from five tickets for a quarter to four tickets for a quarter and that the five-cent fare be obtainable only by the purchase of dollar books.

Such a plan would shift the heaviest burden of transportation costs to the shoulders of those least able to afford it.

It would say, in effect, to the workers of Edmonton, to the poor, to the infirm and to those aged persons to whom the Old Age Pension is not available until they are 70:

"Unless you have a dollar in your pocket, you can't ride for five cents."

In this sense, the proposal is iniquitous, unfair and intolerable.

It is iniquitous and intolerable in the further sense that there is absolutely no need for such an increase.

If the street railway department requires more money at its disposal, there is quite another end at which the problem should be attacked.

The public utilities of Edmonton show a surplus of over one million dollars a year. But that surplus is drained away by the excess carrying charges on a debt of twenty-seven millions which annually amounts to half a million dollars more than they should be.

It is the payment of unjust and absurdly high interest rates that fritters away over half of this annual utilities surplus. It is these high interest rates that prevent the normal functioning of public ownership which is to expend surpluses on increased service or lower rates to the consumer.

It is these high interest rates—not low street car rates—that delays the city from extending a street car service to the 1,600 workers at the plant of Aircraft Repairs, Limited.

If Edmonton wishes to relieve the burden on the taxpayer, which, in itself, is a highly laudable desire, the council should not increase the cost to consumers which, in this case, are those least able to pay, but work to lower the interest rates that are regularly skimming the cream off profits that should go to benefit of the public.

There is no case whatsoever for any increase in street car fares. The proposal is faulty both in logic and in humanity.

## BRITONS WEARY

## Army of Burma Reaches India

**By The Canadian Press**

Climaxing a five-month battle against hopeless odds, the last weary remnants of the British army in Burma have crossed into Manipur state in eastern India, it was reported today, while the Vichy radio declared Japanese troops had advanced 80 miles into India along the Bay of Bengal.

**The Vichy broadcast quoted vague and unconfirmed reports that the invaders had reached a point within 16 miles of Chittagong, 210 miles from the great Indian metropolis of Calcutta.**

The withdrawal of the last British force, estimated at 5,000 men, followed a dogged retreat from the bomb-ruined city of Mandalay and a Japanese thrust which separated the British from their Chinese allies.

At last reports, Chinese forces were stubbornly resisting a Japanese advance up the Burma road some 125 miles into China proper.

Allied headquarters in Australia reported that long-range Allied bombers again heavily pounded Japanese ships in the harbor of Rabaul, New Britain, and scored a smashing victory over enemy fighters which tried to intercept them.

A communique said gunners in the big bombers — presumably including Flying Fortresses — shot down seven of 17 Japanese planes attacking them. All Allied planes returned safely.

**RAID SEAPLANE BASE**

Other United Nations bombers raided the Japanese seaplane base in the Louisiade Archipelago, off the southeast coast of New Guinea, sinking an enemy seaplane and leaving shore targets in flames.

The Japanese countered with two heavy raids on Port Moresby, key Allied base in southern New Guinea, first attacking the airdrome with 13 fighter planes and then striking at ships in the harbor with 26 heavy bombers.

Five other men were saved. The victims include two officers. Names of the American soldiers drowned were not immediately available.

The victims are members of the U.S. Engineering Corps sent to the Peace River area to aid in the construction of the highway.

Police say they were advised of the tragedy by Peace River police. However, no names were received at Victoria.

## Vital Questions At Martinique Are Ironed Out

By H. O. THOMPSON

WASHINGTON, May 15.—(BUP)—Secretary of State Cordell Hull said today that the military and economic questions still remained to be discussed at Martinique, but indicated that demobilization of French warships there already had settled the most important point at issue.

Hull, at his press conference, said the economic discussions, including proposals regarding merchant shipping now in French harbors in this hemisphere, involved technicalities that might require some time to adjust. He appeared optimistic over the outcome.

He divided the issues of insuring satisfactory neutrality for the French possessions near the Americas into two phases—military and economic.

The important phase of the military questions related to demobilization of the naval war vessels, Hull said, and that work is proceeding through the co-operation of American and French naval and other officers.

Hull emphasized American determination not to deal with the pro-German Pierre Laval on the Martinique issues. He was asked if the note from Laval referred to in Vichy dispatches had been received. He did not answer the question directly but said he had been giving attention only to the negotiations at Martinique.

## Today's War Moves

By LOUIS F. KEEMLE

The advertised "spring offensive" on the Russian front appears to be devolping, but in an utterly baffling way.

**Germany was commonly supposed to take the initiative at this time of the year. Instead, the Germans are gaining only in the Kerch area of the Crimea, while the Russians are attacking on several sectors between Leningrad and the Sea of Azov.**

It is impossible at this moment to get a true picture of the situation. Most of the information comes from Moscow, and only a little of it is contained in official communiques. The German communiques do not impart much, beyond an apparently premature claim that Russian resistance around Kerch has been broken.

It therefore would be unwise to assume that a general Russian offensive is under way on the 1,800-

LONDON, May 15.—(CP)—Sweeping across the Donets river on a 50-mile front, Marshal Semeon Timoshenko's Red army was reported tonight to have crashed through the inner defences of Kharkov in at least two places, driving the Germans before them.

**Diplomatic sources in London said they had heard that Hitler was so taken aback by the unexpected power of the Soviet attack that he has instructed his ambassador to Tokyo to increase pressure on Japan for an attack on Russia.**

The argument to Japan was said to be that Russia had concentrated so much on the European front that she could give little assistance to an attack against Siberia.

### No Need For Increase

THE transportation committee of the city council does well to reject the proposal that Edmonton's street car fares be increased from five tickets for a quarter to four tickets for a quarter and that the five-cent fare be obtainable only by the purchase of dollar books.

Such a plan would shift the heaviest burden of transportation costs to the shoulders of those least able to afford it.

It would say, in effect, to the workers of Edmonton, to the poor, to the infirm and to those aged persons to whom the Old Age Pension is not available until they are 70:

"Unless you have a dollar in your pocket, you can't ride for five cents."

In this sense, the proposal is iniquitous, unfair and intolerable.

It is iniquitous and intolerable in the further sense that there is absolutely no need for such an increase.

If the street railway department requires more money at its disposal, there is quite another end at which the problem should be attacked.

The public utilities of Edmonton show a surplus of over one million dollars a year. But that surplus is drained away by the excess carrying charges on a debt of twenty-seven millions which annually amounts to half a million dollars more than they should be.

It is the payment of unjust and absurdly high interest rates that fritters away over half of this annual utilities surplus. It is these high interest rates that prevent the normal functioning of public ownership which is to expand surpluses on increased service or lower rates to the consumer.

It is these high interest rates—not low street car rates—that delays the city from extending a street car service to the 1,600 workers at the plant of Aircraft Repairs, Limited.

If Edmonton wishes to relieve the burden on the taxpayer, which, in itself, is a highly laudable desire, the council should not increase the cost to consumers which, in this case, are those least able to pay, but work to lower the interest rates that are regularly skimming the cream off profits that should go to benefit of the public.

There is no case whatsoever for any increase in street car fares. The proposal is faulty both in logic and in humanity.

## BRITONS WEARY

## *Army of Burma Reaches India*

By The Canadian Press

Climaxing a five-month battle against hopeless odds, the last weary remnants of the British army in Burma have crossed into Manipur state in eastern India, it was reported today, while the Vichy radio declared Japanese troops had advanced 80 miles into India along the Bay of Bengal.

**The Vichy broadcast quoted vague and unconfirmed reports that the invaders had reached a point within 16 miles of Chittagong, 210 miles from the great Indian metropolis of Calcutta.**

The withdrawal of the last British force, estimated at 5,000 men, followed a dogged retreat from the bomb-ruined city of Mandalay and a Japanese thrust which separated the British from their Chinese allies.

At last reports, Chinese forces were stubbornly resisting a Japanese advance up the Burma road some 125 miles into China proper.

Allied headquarters in Australia reported that long-range Allied bombers again heavily pounded Japanese ships in the harbor of Rabaul, New Britain, and scored a smashing victory over enemy fighters which tried to intercept them.

A communique said gunners in the big bombers—presumably including Flying Fortresses — shot down seven of 17 Japanese planes attacking them. All Allied planes returned safely.

**RAID SEAPLANE BASE**

Other United Nations bombers raided the Japanese seaplane base in the Louisiade Archipelago, off the southeast coast of New Guinea, sinking an enemy seaplane and leaving shore targets in flames.

The Japanese countered with two heavy raids on Port Moresby, key Allied base in southern New Guinea, first attacking the airdrome with 13 fighter planes and then striking at ships in the harbor with 26 heavy bombers.

## NEAR FORT ST. JOHN

## Twelve American Soldiers Drown

VICTORIA, B.C., May 15.—(BUP)—Twelve members of the United States army, engaged in work on the Alaska highway, were drowned today near Fort St. John.

**Provincial police headquarters in Victoria says the men were thrown into the water when a pontoon collapsed.**

Five other men were saved. The victims include two officers. Names of the American soldiers drowned were not immediately available.

The victims are members of the U.S. Engineering Corps sent to the Peace River area to aid in the construction of the highway.

Police say they were advised of the tragedy by Peace River police. However, no names were received at Victoria.

LONDON, May 15.—(CP)—Flt. Sgt. Foster Kerr of South Mountain, Ont., has been awarded the Distinguished Flying Medal for bravery shown in a recent air attack on Rostock, the British Broadcasting Corporation said today.

### Vital Questions At Martinique Are Ironed Out

By H. O. THOMPSON

**WASHINGTON, May 15.—(BUP)—Secretary of State Cordell Hull said today that the military and economic questions still remained to be discussed at Martinique, but indicated that demobilization of French warships there already had settled the most important point at issue.**

Hull, at his press conference, said the economic discussions, including proposals regarding merchant shipping now in French harbors in this hemisphere, involved technicalities that might require some time to adjust. He appeared optimistic over the outcome.

He divided the issues of insuring satisfactory neutrality for the French possessions near the Americas into two phases—military and economic.

The important phase of the military questions related to demobilization of the naval war vessels, Hull said, and that work is proceeding through the co-operation of American and French naval and other officers.

Hull emphasized American determination not to deal with the pro-German Pierre Laval on the Martinique issues. He was asked if the role from Laval referred to in Vichy dispatches had been received. He did not answer the question directly but said he had been giving attention only to the negotiations at Martinique.

### Today's War Moves

By LOUIS F. KEEMLE

*Copyright, 1942, by the British United Press and The Edmonton Bulletin*

The advertised "spring offensive" on the Russian front appears to be devolving, but in an utterly baffling way.

**Germany was commonly supposed to take the initiative at this time of the year. Instead, the Germans are gaining only in the Kerch area of the Crimea, while the Russians are attacking on several sectors between Leningrad and the Sea of Azov.**

It is impossible at this moment to get a true picture of the situation. Most of the information comes from Moscow, and only a little of it is contained in official communiques. The German communiques do not impart much, beyond an apparently premature claim that Russian resistance around Kerch has been broken.

It therefore would be unwise to assume that a general Russian offensive is under way on the 1,500-

### Hitler Begs Japs To Hit At Siberia

LONDON, May 15.—(CP)—Sweeping across the Donets river on a 50-mile front, Marshal Semeon Timoshenko's Red army was reported tonight to have crashed through the inner defences of Kharkov in at least two places, driving the Germans before them.

**Diplomatic sources in London said they had heard that Hitler was so taken aback by the unexpected power of the Soviet attack that he has inserted his ambassador to Tokyo to increase pressure on Japan for an attack on Russia.**

The argument to Japan was said to be that Russia had concentrated so much on the European front that she could offer little resistance to an attack against Siberia.

By HENRY C. CASSIDY

MOSCOW, May 15.—(AP)—The Red army drove ahead against Kharkov today, recapturing a number of nearby communities and forcing the Germans into retreat after brushing aside counter-attacks in which the Nazis vainly threw in their reserves, front-line dispatches reported.

**Despite bad weather which hampered tank and aerial operations, the Russians deepened their penetration of the Nazi positions and advanced over roads littered with hundreds of Ger-**

### $300,000.00 Is Flood Damage In South Area

**Cost to the provincial government of damage caused by floods in the High River district will be approximately $300,000 for repairs to highways and bridges, it was estimated Friday by Hon. W. A. Fallow, minister of public works.**

N. W. Macpherson, commissioner of highways for the provincial government, is now in the district checking up on the situation, the minister stated.

Government crews have already started repair of damage caused by floods which occurred when the Highwood river overflowed its banks and swept through the town.

**BREAKWATER BUILT**

It was reported that several years ago between $50,000 and $60,000 was contributed by the federal and provincial governments for construction of a breakwater in the area now flooded.

It is expected provision of protection against repetition of the flood will be considered.

### Gibson Block Man Dies In Street

Fred D. Quinn, 2 Gibson block, dropped dead at the corner of 103 avenue and 101 street at noon Friday. The dead man is a tailor by trade being employed with Reys Clothes. He is about 47 years old.

After police were notified, Quinn's body was removed to Connelly-McKinley funeral parlors. Dr. F. Keillor, coroner, will view the body to decide the cause of death later in the day Friday.

NAVAL RACE ON

# Five New 40,000-Ton Jap Battleships Ready Soon: 17 Are Building In U.S.

By ALFRED E. WALL

LONDON, May 15.—(AP)—Spare outlines of the greatest battleship building race in history, that between the embattled navies of the United States and Japan, are sketched by the new 1941 edition of Jane's Fighting Ships, the authoritative naval annual made public yesterday.

**To previously known details of the Japanese capital ship program, a huge effort in relation to Japan's resources, the new edition adds the names of the last three of a group of five fighting monsters of more than 40,000 tons.**

**TWO COMPLETED**

Two of the five, the Nissin and Takemitsu, are completed or near completion, the annual indicates, while the other three, now identified as the Kii, Owari and Tosa, probably are not far from ready, the last having been laid down 2½ years ago.

**Against these the new Jane's describes progress on 17 tremendous United States battleships and six battle cruisers.**

"Never before has such a quantity of capital ship construction been under way at the same time for any country," said the foreword. "A similar remark applies to aircraft carriers and cruisers for the United States navy, numbering 11 and 40, while the number of destroyers building challenges comparison with the program of 1918 (when America was carrying out the largest destroyer program in history.)

**SIX LAUNCHED**

"All six of the 35,000-ton Washington class have been launched. Two of them are in service and one, if not two, may be ready before the next issue of this annual appears.

"Six battleships of the Iowa class of 45,000 tons and five of the Montana class either are under construction or are in process of being laid down.

"The first of a class of six battle cruisers, the Alaska, was laid down in December, 1941."

**Completion of Japan's five new battleships is expected to give her a battle line of at least 16 ships, excluding the Haruna, listed in United States records as sunk and the Philippines. The United States lists two others damaged.**

(United States capital ships strength is given in latest Washington tabulations as 15, including the North Carolina and Washington of the new 35,000-ton class and excluding one battleship sunk and one damaged.)

## Gas Shortage In Canada Is Now Serious

**OTTAWA, May 15.—(CP)—Although an abundant supply of gasoline is available at some Canadian centres, a serious general shortage prevails across the country, an authoritative source said last night.**

Report of the shortage came at a time when gas rationing officials throughout the dominion were engaged in reclassifying motorists as to the categories in which they were placed when rationing started April 1. It was stated in some sections that a "substantial" number of ration cards were being called in for reallocation to lower categories.

Some sections reported present shortage as only temporary but in one area retailers for a motor oil company said they were obtaining only 20 per cent of last May's deliveries. As a result they were selling only to persons in commercial or essential ration categories.

In another centre it was said motorists there might find themselves with rations coupons to spare at the end of the summer but unable to buy gasoline because there would be none to buy.

CALGARY, May 15.—(CP)—The Albertan said today in a newspaper story:

"Serious gasoline shortage throughout western Canada is developing, shipments of gasoline from eastern Canada to Saskatchewan and Manitoba are being discontinued and Turner Valley will be called on to supply virtually all the gasoline needs of the prairie provinces.

## City Airman Met Hitler At Berlin

Dubious distinction of shaking hands with Adolf Hitler during the 1936 Olympic games in Berlin is held by AC2 Bruce Humber, student pilot at No. 3 R.C.A.F. manning depot.

As a member of the sprints and relay teams, Humber says his own impression of Hitler at the time wasn't very high. All the Canadians were making wisecracks under their breath at the funny little guy with the "sloppy uniform."

At the same time he admitted Hitler's voice had a strange fascination.

## Red Cross Drive Makes Progress

Contributions of $15,562.78 from country points in northern Alberta, and $21,070.62 from Edmonton, have brought the Canadian Red Cross campaign funds over the one-fifth mark in the first four days of the campaign, officials reported Friday. The drive opened Monday with a quota of $160,000 for northern Alberta, and $35,633.40 had been donated up to Thursday night.

Wetaskiwin has raised $3,700 of its $4,000 quota and Derwent has obtained $600 of its $750 quota, officials said.

City contributions have been reported by the main industrial and the business zones only, and six zone chairmen have yet to report.

6,000 TONNERS

# Monster Nazi Subs Used To Refuel "Wolf Packs"

By J. M. ROBERTS

NEW YORK, May 15. —(AP)— Germany may be using huge submarines, three times the size of her Deutschland of the first Great War, to supply her U-boat nests along the Atlantic coast of North America.

**One line from the diary of a German soldier in Africa, received here last night, contained an item which may have given up a whole field of speculation.**

Picked up by British troops on a Libyan battlefield, the diary contained an entry referring to the work of traitors and spies in tipping the British forces to German activities, mine-field locations and the like. And there was this phrase, dated Sep. 5, 1941:

**"The same thing happened in Bardia harbor. As soon as the 6,000-ton supply-carrying U-boat came in, the Tommies bombarded the harbor."**

The diary was signed by Sgt. Mechanic Ball, of the 20th Engineering battalion of the German Afrika Korps. If Ball knew what he was talking about, and if the German figures he used actually translate into 6,000 tons, then he was giving away a secret which the Germans had protected from everything except speculation.

For months last year it was not clear how Germany, even with her known aerial transport and surface ship activity, could equip and enlarge her Libyan army at the rate she was moving. Ball's submarine and many others like them, could be the answer.

And now, with her 1,000 and 1,500-ton undersea ships operating in packs outside North America's harbors, such motley craft carrying oil, ammunition and supplies would give her a tremendous increase in striking power. The largest known undersea warcraft was the 2,800-ton French Surcouf, recently sunk. The smallest are Japan's two-men boats such as were used at Pearl Harbor.

TROOP LOSSES LIGHT

# Corvette Only Loss At Madagascar

LONDON, May 15.—(CP)—Capture of the Vichy French naval base at Madagascar last week was effected with the loss of one corvette, the Auricula, and "casualties were lighter than had at first been feared, the admiralty and war office announced today in a joint communique.

**Commandos and a company of the East Lancashire Regiment, springing ashore May 5 in a landing that took the garrison by surprise, opened the engagement by capturing a coastal battery commanding Courrier Bay, the communique disclosed.**

By the evening of that day the town of Diego Suarez was in British hands and a captured Vichy officer was dispatched to the district commander with a "statement of our intentions and terms of surrender."

**TERMS REJECTED**

These terms were rejected and the engagement continued, the British force captured Antalrane during the night of May 6, and the Royal Navy, having completed the mine-sweeping of Courrier bay in which the Auricula was lost, entered the harbor of Diego Suarez on May 7.

The British force, under Rear-Admiral Edward Syfret in general command of the expedition, and Maj.-Gen. R. G. Sturges of the Royal Marines, who commanded the troops, arrived off Courrier bay at dawn May 5, the communique said.

**It did not mention where the expedition sailed from, but Prime Minister Churchill in his broadcast last Sunday disclosed the force left "these shores" of Britain about two months ago.**

"The entire force, both naval and military and its supplies were conveyed safely over a very long distance and arrived off Courrier bay at the appointed time without any loss," the communique said.

## Two Escaped Nazi Prisoners Are Captured

**TORONTO, May 15.—(CP)—Royal Canadian Mounted Police announced here today that two German prisoners of war who escaped from Bowmanville camp Wednesday had been recaptured. One by military police in the Union station here and the other at the Belleville, Ont., railway station. Details were not available immediately but it was said the captures occurred at approximately the same time, 11 a.m.**

First reports were that Lieut. Friderich Oeser was the one recaptured here but an R.C.M.P. spokesman said Oeser was the one apprehended at Belleville and that Lieut. Aberhard Wildermutch had been taken into custody in Toronto.

It was the third time Oeser had been recaptured after escape from the Bowmanville camp. His third disappearance was first noted at yesterday morning's roll call when it also was learned that Wildermutch was missing.

Later yesterday police found two large crates, used for transporting clothes and other articles owned by prisoners of war being transferred to another camp, broken open in a baggage car on a Bowmanville railway siding. The crates had been packed by the prisoners themselves and it was thought that Oeser and his companion, both small men, had hidden in the big boxes which were carried from camp Wednesday on a truck and loaded on the baggage car.

## Soviets Smash Inner Defences Kharkov City

Continued from Page One

**man bodies and many smashed tanks and cannon, said Red Star, official army paper.**

It described the whole continuing operation as "another heavy defeat" for the Germans who have held the important Ukrainian steel city since October.

**MAJOR TANK BATTLE**

Stubborn fighting continued 380 miles to the south, on the Kerch peninsula, where a German thrust has twice forced the Russians back. All Soviet accounts emphasized the gigantic nature of Marshal Timoshenko's Kharkov offensive.

"A major tank combat took place in one sector, with a large number of tanks participating on both sides," said Red Star.

**"Forcing a water barrier, our tanks by a powerful thrust split the enemy's concentration of troops and drove a wedge into his defences.**

"Then our infantry moved into the breach and consolidated the occupied positions."

**WEST OF DONETS RIVER**

Apparently referring to the same action, other reports said the Red army was operating on the west bank of a large river which it had crossed earlier while the stream still was ice-coated.

(In London a Reuters dispatch from "the German frontier" said the Russians had pushed seven miles west of the Donets river, apparently the stream the Russian accounts did not identify.

**(The Germans still are "retiring slowly" while awaiting reinforcements. This dispatch said this would place the Red army about 30 miles from the centre of Kharkov.)**

The Russians said they held air initiative on the southwestern front, having destroyed 28 German planes there Wednesday and Thursday against the loss of three of their own.

**NAZIS ARE DUPED**

German reserves desperately tried counter attacks, and when they failed they attempted a ruse, one unit retreating in the centre while the flanks held, said Red Star.

**The Russians, with equal guile, dashed boldly into the trap just as the German had hoped, but simultaneously threw a terrific attack into each flank, so that instead of a trap for the Russians it became a massacre of Germans, the dispatch asserted.**

While this great battle unfolded at a point which may prove the key to the entire Ukrainian fighting, the Soviet information bureau said that "stubborn fighting" continued on the Kerch peninsula. Two Russian withdrawals have been announced there, where the Germans are attempting to occupy the narrow tongue of land which is a short cut to the Caucasus and its vital oil.

**"NOT LICKED YET"**

(A British military commentator said the Russian Kerch army is retiring in good order and "they are not licked yet.")

On other fronts the Russians said there were no important changes.

## Nordegg Mine Blast Report Now Received

**The royal commission investigating the Nordegg mine blast which caused the death of 20 miners last Oct. 31 has submitted its report to the provincial government. The report was received from Mr. Justice Ewing.**

The findings would be reviewed by the government before being released for publication, Hon. E. C. Manning, minister of trade and industry, said Friday.

Hearings were held by the commission at Nordegg from Jan. 6 to 16 this year and 75 witnesses were examined. Another hearing was held in Edmonton April 8 to receive argument of legal counsel on a number of points.

**84-PAGE REPORT**

The 84-page report is accompanied by three sets of evidence and a number of exhibits.

D. B. MacKenzie, solicitor for the attorney-general's department, was commission counsel for the inquiry. A. L. Smith, K.C., Calgary, was counsel for the United Mine Workers of America, and M. M. Porter, K.C., Calgary, acted as counsel for the Brazeau Collieries Ltd., operators of the mine. Counsel for the provincial department of lands and mines was C. M. Macleod, K.C., Edmonton.

## Americans Are In Actual War At New Places

**WASHINGTON, May 15—(AP)—Declaring that more transport planes are needed, President Roosevelt told a press conference today that we are getting into actual fighting more and more and at more places all the time.**

The President spoke of increased American fighting in various parts of the world during a discussion of his order permitting the war department to take over control of all the planes of commercial air lines.

We need all the planes we can get, he said. Every kind is being taken over, he added, including what he termed puddle jumpers and one- or two-man ships. He asserted that almost anything that can fly is useful to the government.

Sneeze germs travel at the rate of 100 miles an hour, according to the estimates of scientists.

## OTTAWA PARLEY

# Vital War Projects Will Require 4,000 Scientific Workers During Next Year

War services and projects will require at least 4,000 engineers and scientific workers during the next year, according to Edmonton members of the War Services Committee of the National Research Council who returned home this week from a conference of the committee held in Ottawa Monday and Tuesday.

**Those attending the meeting from Edmonton were Dr. Robert Newton, president of the University of Alberta; Dr. R. S. Wilson, head of the faculty of engineering; and Dr. O. J. Walker, acting head of the department of chemistry.**

Major Gen. L. R. LaFleche, deputy minister of National War Services, presided at the parley, which was attended by university presidents, members of engineering and chemistry departments and others.

Normal output of engineering and science students from Canadian universities is between 800 and 1,000 annually, but this number is not adequate to meet requirements, it was stated at the Ottawa meeting.

**ALLOCATION OF MEN**

One of the proposals discussed was the allocation by the director of national selective service of graduated technical men. This would eliminate competition to obtain their services.

Another plan put forward was the early physical examination of these students to make sure they will measure up to required physical standards after considerable time had been given to their technical training.

Action by the department of labor to aid engineering and science students who need assistance was endorsed at the Ottawa meeting.

**Under this plan students would receive financial assistance during their early years at university—a time when they need it most. In the past this assistance has been available to students after they have taken university courses for, a certain period.**

A resolution was passed at the conference that students who showed exceptional ability in research work be allocated for work on war projects.

Another suggestion made to the departments of national war services and national defence was that the time spent by engineering and science students on military training be reduced after they had taken two years' training.

**CONCENTRATE ON STUDIES**

It was pointed out that unless such students had been allocated to the services, they would be more valuable to the war effort if they were permitted to concentrate on their studies than if they were required lo maintain full military training.

Need of refresher courses was urged upon the director of national selective service. It was pointed out that full use should be made of universities as technical training centres. Special courses might be established and this plan would increase the supply of technical workers.

## Today's War Moves

**Continued from Page One**

mile front from the Baltic to the Black Sea, which a hasty perusal of the dispatches might lead one to believe.

It is certain that Marshal Semyon Timoshenko has started a strong drive in the vicinity of Kharkov, perhaps aimed directly at that Nazi stronghold. The width of his operations from north to south is not known, but they probably are on a narrow sector, aimed at developing the city.

**KHARKOV KEY POINT**

Moscow dispatches indicate that the Russians have breached the outer defences of Kharkov, reducing some of the pill boxes and entrenchments of the forward "hedgehog" positions. The defences probably are stronger and more numerous closer to the city, since the Germans have had all winter to fortify it. Kharkov is Russia's fourth city, and one of the key points of the German positions. It certainly will not be easy to take, assuming that Marshal Timoshenko is trying to storm it, rather than anticipating and forestalling a German advance.

**Aside from Kharkov, the Russians are reported on the offensive below Leningrad, north of Lake Ilmen, and in the Kalinin area between the lake and Moscow. This latter area involves the German strong point at Rzhev and just to the south is Vyazma, where the German 16th army has been encircled for two months.**

The situation has vast possibilities. It is now apparent that the Russians have started a general offensive. It is equally apparent that the Germans have not. It may be that the Russians, by taking the initiative, are seeking to upset German plans for an offensive.

**UPSET SCHEDULE**

It seems possible that Timoshenko's stroke at Kharkov has interfered with German plans for a drive down the Donets river towards the Caucasus, in conjunction with the advance in the Crimea. If so, Timoshenko has upset the German schedule, which probably was intended to centre attention on the Kerch peninsula and draw Russian concentration southward while the main thrust would be made in the Donets area. Bitter fighting apparently is still going on in the Kerch peninsula. Even if the Germans mop up, they still have to cross the Kerch Straits to the Caucasus under the guns of the Russian Black Sea fleet. Then there are strong defences on the mainland between the sea and Krasnodar.

It seems possible that the Kerch attack was badly timed.

## Axis Ship Bombed From Mast Height

LONDON, May 15. — (CP) — A Hudson plane attacked an enemy ship near Aalesund, Norway, Thursday afternoon and is believed to have scored several bomb hits from mast height despite fierce opposition, the Air Ministry announced today.

## Vice-Chairman

**F. D. Sutcliffe (The Great Western Garment Co. Ltd., Edmonton), who was unanimously elected second vice - chairman of the prairie division of the Canadian Manufacturers' Association, at the annual meeting held at Medicine Hat on May 14. Mr. Sutcliffe was also re-elected chairman of the Alberta branch legislation committee, at the annual meeting of the Alberta branch, which preceded that of the prairie division.**

## Disciplinary Action Taken Nazis' Escape

**OTTAWA, May 15—(CP)—Defence Minister Ralston announced last night that disciplinary action was being taken "in respect of personnel concerned" in the escape of two prisoners of war from the Bowmanville, Ont., prison camp last May 5.**

The minister's statement followed the sitting of a court of inquiry.

Earlier the defence minister announced that a court of inquiry was being set up to investigate escape of two prisoners from the same camp which was discovered early yesterday.

With respect to the two prisoners who escaped from Bowmanville May 5, the minister's statement said the court of inquiry had found there was no evidence the escape was due to any defect in the physical layout of the camp or the arrangements for security of the prisoners of war held there.

**DARING ENTERPRISE**

The statement added it was found that "it was a daring and clever enterprise, the success of which was due to the failure of the human element.

"Disciplinary action is being taken in respect to the personnel concerned."

## 46 Canuck Seamen Saved By Warship After Torpedoing

AN EAST COAST CANADIAN PORT, May 15. — (CP) — Forty-six crewmen of an Allied ship were saved by Canadian warships when three torpedoes sent their vessel to the bottom off Newfoundland recently, members of the crew brought here related last night.

The survivors, including three Canadians, were originally landed at another east coast port. One Canadian, named Wright, died in the torpedoing.

A whale's skin varies from two inches to two feet in thickness.

## 1,211 Japanese Entered Canada In Last 12 Years

OTTAWA, May 15.—(CP)—Japanese immigrants who entered Canada from 1930 to 1941 numbered 1,211, it was reported in a return tabled in the House of Commons yesterday for Rev. E. G. Hansell (N.D., Macleod).

In the same period 155 Japanese were naturalized. The largest immigration shown was in 1930 when 218 were admitted. Only four came to Canada in 1941.

## BILL REQUESTED

# Compulsory Savings For Canadians Is Advocated As Inflation Safeguard

OTTAWA, May 15.—(CP)—A policy of compulsory savings applicable to those with incomes sufficient to ensure a reasonable standard of living was advocated in the House of Commons last night by Hon. W. Earl Rowe (Con., Dufferin-Simcoe) as a safeguard against inflation and means of putting more dollars to work in the war effort.

**Mr. Rowe spoke in the discussion in committee of the whole on the war appropriation bill resolution. He suggested a bill be brought down at once with a view to making compulsory savings effective July 1.**

Mr. Rowe said he believed that, apart from those whose standard of living is below a reasonable level, the majority of Canadians would approve a compulsory savings plan involving deduction at the source of five or 10 per cent of their incomes.

He proposed that the savings be repayable in instalments after the war.

**PEOPLE READY**

John Diefenbaker (Con., Lake Centre) said 337,000 men and women were engaged in the production of civilian goods additional to those so employed at the start of the war. The people were ready for curtailments but desired a lead from the government.

The government should indicate what it would do with industries given assistance for war purposes when peace came.

## Nazis Claim Sinking Of Two U.S. Warships

**BERLIN (from German broadcasts), May 15.—(AP)—The German high command claimed today its air force, flung into battle on the Arctic supply line to Russia, had destroyed a United States cruiser and destroyer as well as a 3,000-ton icebreaker and a 2,000-ton merchant vessel.**

The communique said also a 10,000-ton freighter was set afire from stem to stern in a connected action while in a southern English port bombers destroyed four British merchant ships totalling 7,500 tons.

The communique said the cruiser was of the 9,100-ton Pensacola class (which normally carries 663 men) and identified the naval formation as an American squadron operating between the north cape of Norway and the Arctic island of Spitsbergen.

**NO DETAILS GIVEN**

(The locale of the action—apart from the German claims, which might have been made to gain information on disposition of U. S. naval power—was the first indication American fleet units were operating so deeply on the supply route to Murmansk and Archangel.)

**The communique gave no details DNB, the news agency, however, said the cruiser was bombed on Thursday, took fire and sank at midnight last night. One of several accompanying destroyers was hit and sunk, the agency reported.**

DNB said that the icebreaker and the 2,000-ton merchant vessel were bombed in a fjord at Spitsbergen, whereas the high command gave no locale.

This might be taken to suggest some move pivoting on the large Norwegian island, 400 miles off northernmost Norway, which Canadian, British and Norwegian shock troops raided last September in an armed reconnaissance against valuable coal mines and removal of several hundred Soviet miners and their families.

## Price Ceiling Is Placed Used Cars

OTTAWA, May 15.—(CP)—Uniform price ceilings on used cars have been established in each province, it was announced in a Wartime Prices and Trade Board statement last night.

A systematic depreciation rate is set for all used cars according to age and model year and in relation to the established ceiling prices of the equivalent current year model.

"The ceiling prices as established should not be confused with the price the owner may expect to receive for his used car if he is trading it in to a dealer on a new or used car," Mr. Berry said. "The ceiling prices established cover used cars in first-class condition with equipment complete and the car thoroughly reconditioned mechanically."

## Calgary Junior Choral Society Festival Winner

CALGARY, May 15.—(CP)—The Calgary Junior Choral Society won the Lethbridge Challenge Shield for female choirs, and the First Baptist Church Choir was awarded the McNamara Shield in last night's competitions at the 35th annual Alberta Music Festival.

The Henry Shield went to the North Hill United Ladies' Choir, and the Edmonton Journal Shield to the South Hill United Church Choral Society for choral sight singing.

In the mezzo soprano class for girls under 19, Beatrice M. Cull, of Lethbridge, was first with 87 and 84 points, and Mary Gverand, Red Deer, was second with 86 and 83 points.

## Stimson Asserts Coast Air Raid Danger Is Real

WASHINGTON, May 15.—(AP)—War Secretary Henry Stimson said yesterday the possibility of air raids on the west coast is "a real danger."

Asked at his press conference to comment on reports that frequent air raid alarms and blackouts on the Pacific coast were the result of the activities of friendly planes, Stimson replied that he was "unable to make that assumption."

"They are on their toes out there, and very much on the alert," he said. "I am glad to see them alert, because I think there is a real danger."

## Takes Own Life

NEWHALL, Calif., May 15.—(AP)—Frank Churchill, composer of the song hit, "Who's Afraid of the Big Bad Wolf," was shot and fatally wounded yesterday on his ranch near Newhall. Deputy Sheriff John Morrell said the death was a suicide.

## War Veterain Pays Tribute To Red Cross

**"The value received by the soldier from the Red Cross is a thousand times greater than the paltry sum the society is asking to carry on its work," a veteran of the First World War, stated Thursday.**

Three times wounded and three times cared for by the Red Cross organization, he said, "If it wasn't for the Red Cross nurses I wouldn't be here today." The veteran, who has taken a prominent place in civic affairs, has asked that his name be withheld.

The Red Cross organization and nurses can never in any way be fully repaid for the services they have given and are giving, he said. "It doesn't matter whether the soldier is in good health, ill, wounded, a prisoner of war, whether a sailor is able-bodied or a sick man rescued from a sunken ship, the Red Cross has always been ready to help."

**SERVED IN 49TH**

The veteran served in the 49th Battalion. He enlisted on June 4, 1915, and was discharged on May 1919. He was wounded three times. His appreciation of the Red Cross is increased because of aid given his brothers.

One brother was captured at Amiens and died a prisoner of war. Another was one of two survivors of a ship who were picked up in Dutch waters and interned in Holland. It was only through the Red Cross that parcels of food reached him, the veteran said. A fourth brother also served and lost his life on the "Wasp." And a fifth brother, who saw service in the Dardanelles at 15, also was aided by the Red Cross.

The Red Cross are seeking $180,000 from voluntary contributors in northern Alberta, in order to carry on its humanitarian work of caring for injured men of the forces, prisoners of war, and air raid victims.

## 2 Nazi Trawlers Are Left Sinking

LONDON, May 15. — (CP) — The admiralty announced today that two enemy trawlers were left disabled and sinking after a fight with British light naval forces off the French coast in the English channel last night.

The admiralty also reported that in an attack on a German convoy Wednesday morning the Germans suffered considerable damage and casualties in addition to the admitted sinking of one of their torpedo boats, and that a British light coastal craft is missing.

## Troop Movements Need Extra Cars

Movement of more than 300 recruits to basic army training centres at Grande Prairie and Camrose was being carried out Thursday and Friday.

There were special cars on the north train Thursday afternoon to take the Grande Prairie contingent and five extra coaches were required to carry the Camrose contingent that left Friday morning.

There were 125 in the train for Grande Prairie with 202 for Camrose.

This is the 27th quota for basic training camps in Alberta.

## Cadet Inspection

Annual inspection of No. 12 Edmonton Squadron of the Air Cadets of Canada, will be held in the Arena building at No. 3 Manning depot of the R.C.A.F. at 8 p.m. Friday.

A group of high officers from headquarters of No. 4 Air Training Command at Calgary will conduct the inspection. Parents of the cadets have been provided with special passes in order to witness the inspection.

## Nazi Munitions Train Blown Up

LONDON, May 15.—(CP)—Reuters in a Moscow dispatch today said the Soviet news agency Tass carried a Stockholm report that a German train "believed to be carrying chemical shells" had been wrecked in Poland between Breslau and Krakow on the night of May 9-10, causing an explosion heard as far as 100 miles away.

From Switzerland Wednesday came a report that Germany had a "surprise weapon" in a new type shell which detonates with such intensity as to deafen and immobilize persons over a wide area and which generates a stupefying gas as a by-product.

Last week Tass distributed a dispatch reporting the Germans had used poison gas mines on the Crimean front, apparently in an experimental way. This was followed by Prime Minister Churchill's warning Sunday that Britain would retaliate against Germany for any gas warfare instituted by Berlin.

## Canada Warship Building Praised By Naval Amiral

LONDON, May 15.—(CP) — The "surprising development" of warship construction in Canada is praised in the latest edition of Jane's Fighting Ships, authoritative naval annual, just off the press.

A paragraph devoted to the British Dominions in the foreword says: "Some reference must be here made to the surprising development of warship building in the British Dominions overseas, especially in Canada. Sloops, corvettes and minesweepers have been turned out in surprising numbers and several destroyers are also in hand."

## Sub Sinks First Mexican Vessel

MIAMI, Fla., May 15.—(AP)—An Axis submarine stalked a fully-lighted Mexican government-owned merchant ship, the Portrero Del Llano, off the southeast coast for half an hour recently and then rammed a torpedo directly into the large, illuminated Mexican flag painted on its side beneath the bridge.

It was the first Mexican ship lost by submarine action since the war began.

## Actor Dies

NEW YORK, May 15.—(AP)—While the audience still applauded his act, Joe Jackson, 67, famous for 40 years as a tramp bicycle rider on stages all over North America, collapsed and died in the wings of the Roxy theatre yesterday.

## Getting Better Organized

Interest in the salvage campaign in Edmonton will—and should—become wider and more consistent with the announcement that the city is to supply trucks for regular and systematic collection. Hitherto the collecting has been done by the use of trucks loaned by private parties, an arrangement which could hardly be expected to permit clock-like regularity. With collectors continuously on the job this part of the effort can be put on a more satisfactory basis.

The results of this effort, sponsored by the Junior Chamber of Commerce, have been well worth while, and show that really great quantities of otherwise waste material can be conserved and turned to use over a period of months. The urgency of the saving is growing as time passes and the demand on new supplies of raw material grows greater. Salvage collections supplement these new supplies, to a degree that is already important and is increasingly so.

To achieve the maximum results, householders must know definitely what to save, how to sort and bundle up the various kinds of articles, and when these will be called for. Their willingness to cooperate can be counted on, and all that is needed is to reduce the whole undertaking to system.

## A Two-Way Offensive

Both sides cannot win a battle. But when hundreds of thousands of men are locked in a confused and confusing struggle both commanders may think they are winning. This perhaps explains the widely different reports coming from Berlin and Moscow about the fighting in the Crimea. With the exception of the Nazi claim that 40,000 Russian troops had been surrounded and captured, Moscow says flatly this is a lie, and the Red authorities would know if a loss of that magnitude had occurred.

The reply to the Nazi offensive in the Crimea is the Russian drive at Kharkov. If the one is a threat to the Caucasus oil fields, the other is a threat to the supports and communication lines of the enemy advance farther to the west, the Black Sea area. The great industrialized centre would itself be a prize of high value to the Russians and a serious loss to the enemy; but the capture of the city may be only the first objective in the planned Red counter-offensive toward the southwest.

Anything may happen in that tussle of giants, and the places of these opening moves in the schemes of Hitler and Timoshenko will not be known until the struggle develops. It may be significant that the Red forces are on the move also away to the north of Moscow; evidence at least that they have not found it necessary to starve other sectors in order to bolster the southern end of the line with tanks and other equipment.

It is seven months since Berlin pompously announced that the Russian army had been destroyed and only mopping-up operations remained to the Nazi forces. But during the winter it has been the Russians who did the mopping-up, and the opening round of the spring campaign encourages hope that they will be able to keep up the good work. If the attack on Kerch was intended to be a blitzkrieg, it failed to come off in the first five days.

## A Tribute To Canada

The layman is not in position to know what precisely were the reasons for calling the air conference that is to be held at Ottawa next week. He might not comprehend very clearly even if the officials and the technicians explained, just because he is not an expert and because he cannot know the Allied war plans. But as front rank air officials of Britain and the United States are to be present, with representatives of a dozen other of the United Nations, it is clear that the gathering is of exceptional importance, whether it is to deal with the development and co-ordination of training plans or with air war strategy.

It is plain also that the holding of the conference in Canada is a tribute to the part Canada has taken and is taking in building up Allied air power. Who first thought of the Commonwealth Air Training scheme is not known, but the results have earned for him a high place among those who pointed the road to victory. Graduates of these schools have fought and are fighting on every front from Norway to Burma, possibly excepting Russia. From these training centres every month a large and steadily growing number of fully qualified pilots and other airmen go out to man the new planes coming out of the factories in this continent and Britain. Had it not been for this great instructional system British bombers could not now be raiding Nazi munitions plants in "clouds" up to a thousand strong, day after day and night after night.

Canada's own air force now numbers more than 100,000 men, every man a volunteer and available for service anywhere in the world. It maintains its own identity even in Britain. One squadron is now blasting at the Japanese forces on the border of China. Recent despatches have indicated that others are helping to hold the enemy at bay in the Mediterranean area. But despite this heavy enlistment, the Minister told parliament the other day there are enough recruits now in sight to keep the training centres full for six months. No other country, on either side, has produced an air force of corresponding proportion to its population. Young Canadians do "take to the air" and they make good there.

The air conference is being held in the right place.

The riot—if that is the proper word—in the Vancouver exhibition grounds, where Japanese are being held pending their removal to work camps in the interior of British Columbia, suggests that the sooner they are moved the better. Idleness is not good for any person, and a spell at road-building should have a salutary disciplinary influence upon the "fed up" internees.

—V—

There is a sinister suggestion in the report from Lisbon that 30,000 or more French airmen are to be released from German prison camps. Moscow said the other day that the heavy loss of enemy planes on the eastern front has been due to a lack of trained pilots. If Laval is engineering the release of French fliers he probably intends to lend them to Hitler.

A farmer near Whitby, Ontario, complained to the police that Gypsies had stolen $20,000 worth of bonds from his house. All over Canada people have been buying war bonds and savings certificates in large and small amounts—and no doubt in very many cases are keeping these in cupboard drawers and other places about their homes. The Whitby incident supplies a warning that such securities should be placed in safety deposit vaults or locked up in safes.

## Looking Backward

**From The Bulletin Files**

### 1892 — 50 Years Ago

Detroit Free Press: "There are twenty well built towns in Kansas without a single inhabitant to awaken the echoes of their deserted streets. Saratoga has a $30,000 opera house, a large brick hotel, a $20,000 school house and a number of small business houses, yet there is nobody even to claim a place to sleep. At Fargo, a $20,000 school house stands on the side of a hill, a monument to the bond-voting craze. A herder and his family constitute the sole population of what was once an incorporated city. . . . Those Kansas towns, like Wichita, advertised themselves as phenomenal boom cities. For a while everything was lovely and 'the goose hung high' but at last dry rot took hold of the boom towns and killed them."

# No Place For Half-Hearted Combatants In Canada

**Must Have Totality of Service and Equality of Sacrifice**

*By HAROLD L. WEIR*

There comes a critical time in the life of every nation when the tolerance ordinarily and properly extended towards minority opinion ceases to be a virtue.

That is a time when emergency becomes so acute that the ordinary polite usages have to be suspended, when forbearance becomes a crime and when plain-speaking is an imperiling national duty.

Harold L. Weir

Such a time is now upon us in Canada.

If it becomes necessary, then, to speak plainly and intolerantly and imperatively to and of dissentient Quebec, the fulfilment of that national duty need not be interpreted as malicious or careless forgetfulness of all that French-Canadians have contributed to the national life of this country.

One would be a fool or an ignoramus to thus forget. One would be equally a fool or an ignoramus to allege forgetfulness or lack of appreciation or racial malice as the basis of an attack on Quebec's present stand.

But the law of Canada—and of France—lays down the principle that a man is arraigned before the courts either of public opinion or of justice, he is tried, not on his completed record as a man, but in exclusive regard to the matters in which he has presently offended.

No thief escapes imprisonment because he has hitherto led a blameless or even an exemplary life.

It is in this spirit that the case of disentient Quebec must be judged. Neither past friendships nor admiration nor gratitude can be permitted to interfere with our clear judgment of the present national crisis in regard to overseas conscription.

**Total War**

Quebec's refusal to abide by the decision of the majority in the recent plebiscite vote is reprehensible for both practical and theoretical reasons.

Quebec's guilt in this matter, in other words, has both concrete and ethical consequences. Her position both endangers the immediate life of the country and transgresses the principles upon which the country was founded.

The stubborn insistance of French-Canada upon standing aloof from military service overseas plunges Canada into extreme jeopardy, since it relegates Britain's buttresses and may prevent our effort to wage total war.

Total war means that every man, woman and child in the country must be mobilized for victory.

That is the way Germany and Japan are organized. Our military leaders are well aware that it is only by similar organization we can defeat these powers.

This is no longer a struggle between armed forces. It is a death struggle between total populations. If our total population will not fight, we are defeated and Canada will fall into the hands of the enemy.

Nor is it a struggle that can be confined, as ancient wars used to be, to carefully defined areas. We cannot choose our battlefield.

This is a global war. It ranges over every corner of the known earth.

The defence of Canada must be pursued in any country or on any sea where the Germans or the Japanese or their allies offer opposition.

When Quebec, therefore, refuses to fight in the defence of Canada overseas, the only possible inference, under these circumstances, is that she refuses to take part in this global war; she refuses to fight for Canada.

And anyone who refuses to fight for Canada, in this crisis of total war, must be presumed to be fighting for the enemy, because there is no such thing as an impassive attitude possible. There is no such thing as neutrality.

Quebec's declaration for Canadian isolationism, therefore, is a declaration for the Axis.

**Minorities**

Democracies will probably always have their minorities. There will always be minorities because it is not humanly possible for all men to think alike. Doubtless minorities are wholesome phenomena because too much single-mindedness in a nation in normal times, is likely to lead to bigotry and error.

It is only in the clash of opinions, in human affairs, that the spark of truth is struck out. Presumably there is little divine revelation in politics.

But the very lifeblood of democracy is majority rule. After all the minorities are permitted to express their varied opinions, as was the case on April 27, the will of the majority must prevail.

That is British democracy. And Canada is going to remain a British democracy.

That corrupt and culpable sectionalism that refuses to accede to the majority decision is the indirect proponent of dictatorship and tyranny, under which are dictatorship and tyranny but pernicious minority rule?

Quebec, then, in disclaiming a responsibility to the majority will in this urgent matter of overseas conscription, is trying to turn back the clock to those iniquitous periods in the world's history when men and groups and communities sought to advance themselves by special privilege and when vested rights and governments ruled by favoritism.

**Equality**

The urgency of the present conscription situation is not derived altogether from the immediate need of men and the necessity for organizing for total war, although that need and that necessity are overwhelming.

There is the further fact that conscription is the only possible way of recruiting an army in which there is an equality of sacrifice.

It is shamefully absurd that middle-aged men with wives and children should be conscripted into the armed forces while hundreds of thousands of fit young men hang back awaiting the passage of a law that will compel equal service from all men of equal ages.

The draft in the United States has imposed an equal obligation upon young men of all economic conditions. Why should there be favored groups or communities in Canada?

The bald fact is that conscription for overseas service is so immediately necessary for both practical and moral reasons that political expediency cannot postpone it any longer.

If Quebec continues to refuse to play a manful and democratic part, there is no reason on earth why the same force that compels social rebels to obey the criminal law, should not be employed to make French-Canada obey the stern law of necessity.

# New Rich; New Poor

**War Affects Fortunes of People in Varying Manners**

*FROM THE MAGAZINE "TIME", NEW YORK*

At Chicago's Boat Mart, a slick runabout used hands for $1,500 last week. The seller: an auto-parts manufacturer, his business shot by priorities, his savings shot by income taxes, his nerves shot by the war. The buyer: a steelworker with plenty of overtime in his pay envelope and a thriving bank account.

In the wartime United States the poor were growing richer, the rich poorer. War-factory payrolls had brought back World War I's silk-shirt days, except that most buyers now didn't want silk shirts. High taxes and living costs had put many a rich man on half rations. Badly off were white-collar workers with fixed salaries; school teachers, Civil Service employees, office workers whom the boom had passed by.

Men and women who had seldom had one coin to rub against another suddenly heard an unmistakable jingle from their pockets. Girls who had worked as maids for room, board and peanuts found factory jobs at $100-$200 a month. A Manhattan physician's maid quit to move into her own home; her husband, out of work for years, now made $26 a day pouring cement.

**Boom Town**

For the skilled factory hand, Detroit was the biggest boom town of all. Tool and diemakers earned $125 to $175 a week; new girls at Briggs Body got 85c an hour. Even girl stenographers at Willow Run got $67.50 a week.

Detroit's swank Saks Fifth Avenue store invited the General Motors Girls' Club to an evening fashion show, expected 300, and was swamped by working girls from all over the city. Saks put on its show four times in two nights, finally gave up with 8,000 requests for tickets still unfilled. The show featured inexpensive goods like compacts, gloves, $20 coats—instead, the girls bought $37 dresses, $85 coats.

The new rich used their money to buy things that were once undreamed-of luxuries. They quoted jewelry sales to 26% above last years': in Pensacola, Fla., a plasterer walked into a tony jewelry shop, counted out $1,000 for a diamond wrist watch; next day his wife returned with the watch and another $50 for a better one.

Snooty stores from Coast to Coast ordered a relaxation of snide sales approaches, began to direct their advertising plumb at plebeians. Bullock's Wilshire, tony Los Angeles department store, went after war workers' dollars; Macy's, New York people's store, waved farewell to the bon ton trade. Phonograph shops discovered a new kind of customer not young swing collectors, not symphony lovers, but plain people asking for Old Black Joe and My Old Kentucky Home.

**Expensive Side**

On the expensive side of the railroad tracks, men and women were busy cutting down. Detroit's auctioneers did a big business selling furniture and art from hotel-sized houses which were now too big a burden to keep up. Stocking-repair counters worked on more expensive sheers than cheap service weights. The Junior League reduced its dues from $120 to $75.

In every big city, agents for big apartment-hotels held their breath; many a wealthy tenant would give up his town apartment when the lease expired. And up and down the U.S. vacationlands, proprietors of snooty resorts wondered what they would do for customers this Summer.

## Brevity

*PATHFINDER*

When Lord Napier was conducting a campaign in British India against the natives of the State of Scinde, pronounced "Sinned", he sent a message from the field to England's War Office which perhaps has no counterpart for brevity.

The message came, a single Latin word:

"Peccavi."

Translated, it became: "I have sinned".

And the War Office knew, with its tongue in its cheek, that Lord Napier had taken Scinde.

## Debt Finance

*NEW ENGLISH WEEKLY (LONDON)*

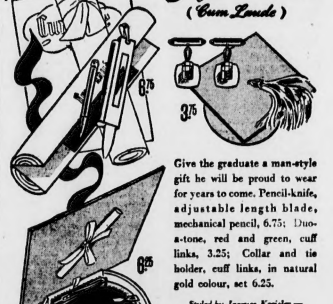

Through the stress of war a saner economic system is at least becoming possible, for it is removing the most corrosive irritant in international relationships. The creation of unrepayable debt under "the dollar sign" has been dismissed by the Lease-Lend Act between the United States and their Allies, thereby creating a widening circle of real exchanges, freed from the meshes of money valuation, and it is breaking the same evil net between all Allies. Even when the strait-jacket of debt might be fastened by the victim upon the former jailer, as it could be by Canada upon Great Britain, advantage is not taken of the opportunity: the lesson seems to have been learned. The Dominion of Canada not only undertakes to deliver $1,000,000,000 worth of munitions, raw materials and food to Great Britain, free of all financial debt, but at the same time, while judiciously redeeming $85,000,000 of Canadian government and National Railway securities, the Dominion converts into a Canadian dollar loan, interest-free for the duration of the war, her $150,000,000 of sterling balances in London.

Eighty thousand carrier pigeons were used by Great Britain during World War I.

## New York Stocks

NEW YORK, May 15—(AP)—Quiet strength of leading industrial stocks contrasted with weakness of air transport issues in today's market. The latter dipped when the government acted to take over aerial travel systems as a war measure. Gains of fractions to a point or so were well maintained for the majority of favorites in the final hour.

# Prices Unchanged In Wheat Futures

WINNIPEG, May 15—(CP)—Light mill demand, coupled with local trade in wheat composed the bulk of the business on Winnipeg Grain Exchange today. Wheat futures closed unchanged, May at 79¼b cents a bushel, and July at 80⅜b.

While no export business was reported today there was evidence of export wheat worked yesterday, presumably to the United Kingdom and a neutral country. Some estimates placed this business at about 250,000 bushels.

# Reserve Army Head Here On Saturday

Maj.-Gen. B. W. Browne, D.S.O., M.C., director of the Canadian Army (Reserve), will be in Edmonton Saturday to confer with military leaders here on matters concerning reserve army affairs.

Maj.-Gen. Browne will be accompanied by Brig. E. R. Knight, V.D., officer commanding the 41st Infantry Brigade of the Canadian Army (Reserve).

The officers are arriving on a morning train from Calgary and will be met at the station by Lt.-Col. E. Brown, M.M., E.D., Edmonton Area Commandant.

A luncheon will be tendered the officers at the Prince of Wales Armory at noon.

# Eight More Axis Raiders Are Shot Down Over Malta

VALETTA, May 15.—(CP)—Malta's defences destroyed eight enemy air raiders and damaged five others yesterday, continuing to score heavily on Axis air forces which have raided the island fortress more than 2,300 times since Italy entered the war.

Long, drawn-out aerial combats were in progress most of the day, and anti-aircraft ground defences poured in short bursts every time the sky was clear of the recently-strengthened R.A.F.

There was no immediate report on casualties or damage.

# Raid Deaths In Britain During April Total 938

LONDON, May 15.—(CP)—Britain's air raid casualties for April, a period covering Germany's retaliatory "guide book" attacks on Norwich, Exeter, Bath and Hastings, among other places, totalled 938 dead and 998 injured, the ministry of home security announced last night. In April, 1941, 6,068 persons were killed and 6,902 injured.

# Stutchbury To Head Alberta Manufacturers

MEDICINE HAT, May 15.—(CP)—C. H. Richardson of Saskatoon, was elected chairman of the prairie division of the Canadian Manufacturers' Association at the annual meeting here yesterday. He replaces W. A. Church of Medicine Hat.

Fifty representatives of industry from Alberta, Saskatchewan and Manitoba attended the meeting, highlighted by an address by F. L. Jeckell of Ottawa, director-general of the industry and sub-contracts co-ordination branch of the department of munitions and supply.

Howard Stutchbury of Edmonton, former trade commissioner of the Alberta government, was elected chairman of the Alberta branch, succeeding J. F. Davies.

J. N. T. Bulman of Winnipeg was elected first vice-chairman and F. D. Sutcliffe of Edmonton, second vice-chairman.

EXECUTIVE COMMITTEE

Named for the executive committee were E. G. Rogers, S. W. Campbell, G. W. Swan, D. J. Hutchings, J. W. Bringhurst, W. T. Kennedy, J. McDonald, J. D. Henderson, W. L. Wallace, all of Winnipeg; E. C. Whitehead, E. F. Fotheringham, both of Brandon, Man.; J. S. Turnbull, J. A. Wilson, both of Regina; H. A. Goodman, Moose Jaw, Sask.; John A. East, Saskatoon; and J. F. MacMillan, R. E. Emery, C. D. Jacox, all of Edmonton; L. W. Caldwell, R. L. Cushing, T. M. Carlyle, all of Calgary; J. E. Davies, W. A. Church, both of Medicine Hat, Alta.; L. B. Knowlton, Lethbridge, Alta.

# Wheat Seeding Is 75 P.C. Completed

WINNIPEG, May 15. — Wheat seeding in Alberta is 75 per cent completed and seeding of oats and barley is well advanced, according to a report issued today by the C.P.R.'s agricultural department.

The week has been moderately warm to cool, the report says, with strong winds at times and cold nights, and heavy rains in south and southeast Alberta. Scattered rains fell in the north of that province.

Growth has not been rapid anywhere, but many points, particularly in Saskatchewan and Alberta, report wheat two to three inches. Grain is showing good germination in most areas.

South and south-eastern Alberta conditions have been materially improved by heavy rains, but more moisture is needed in the north.

In the Peace River area wheat is 80 per cent seeded and other grains 35 per cent. In some places rain would be welcomed but no crops are suffering there as yet.

# Edmonton Pilot Wins Promotion

LONDON, May 15.—(CP)—A list of promotions released today by R.C.A.F. overseas headquarters contained the names of 36 officials, including those of E. R. Esmond, Ottawa, R. C. Lindsell and Pazos Kanki, Argentina, promoted from Flight Lieutenant to Squadron Leader.

There were seven new flight lieutenants, seven flying officers and 19 pilot officers, the promotions included:

From flying officer to flight lieutenant: H. P. Peters, Edmonton, and P. Bissky, Saskatoon.

From pilot officer to flying officer: J. F. McGrath, North Battleford, Sask.

# Ceiling Prices Set For Tires

OTTAWA, May 15—(CP)—Coincident with announcement of new tire rationing policies by the Munitions and Supply Department, the Wartime Prices and Trade Board Thursday described briefly the new ceiling prices which it has established on all retreaded and used tires, used tubes, and retreading and repair services.

The price order fixes a maximum price of $5.40 at which the popular 6.00x16 size of used tire may be sold, if the tire did not require sectional repair before its sale.

The dealer may, however, charge up to $8.10 for a similar tire on which he has made one built-in and vulcanized sectional repair, or $9.70 for a tire which required two or more such repairs.

# Ottawa Planning Troop Transport By Glider Plane

OTTAWA, May 15. — (CP) — Air Minister Power yesterday told the House of Commons his department has plans for transport of troops by air transport and for transport by gliders.

"But transport planes are one of the hardest things to come by," he added.

The minister was replying to questions from several members who wanted to know if any paratroop training was planned.

He said paratroop formations are not planned at the moment.

# War Contracts, Commitments Top Four Billion Mark

OTTAWA, May 15.—(CP)—Total value of contracts awarded and commitments made by munitions and supply department on Canadian, United Kingdom, and other account has topped the $4,000,000,000 mark, it was announced yesterday. Preliminary figures show the grand total for the period from July 14, 1939, to April 30, 1942—33½ months—was $4,082,727,233.

# Today's Sport Parade

## —By Jack Guenther

NEW YORK, May 15.—(BUP)—The upper brackets of the boxing business, rusted by six weeks of stagnant idleness, begins throbbing with life and laughter again tonight. Mike Jacobs' annual spring drive will be launched by a lightweight bout involving champion Sammy Angott and Allie Stolz and a merry evening is in prospect.

**The contest will be held in Madison Square Garden, closed to Jacobs since early April while the circus held forth, and it is an undeniably intriguing attraction. It is the first major bout scheduled locally since the war effort has gone into high gear and it will serve as a guinea pig to be scrutinized carefully by the cash conscious Lammers' Lanters.**

Into the public reaction evoked by this match may be read the possible reception in store for weightier matters which still are in the blue print stage. Next Thursday Lou Nova will meet Lee Savold in Washington and a day later Bob Pastor will tune up for a possible third heavyweight title bout by facing Tami Mauriello back here in the Garden.

**PASTOR TO MEET LOUIS**

On these three promotions rest chances of the aforementioned possible title extravaganza featuring Pastor and King Joe Louis—if the army decides to give the champion a furlough to train. Jacobs applied for official sanction of his proposed epic Wednesday and said it would be held in June either here or at Chicago.

**At the moment any sport event is wide open to immediate alteration or outright curtailment. Boxing is in a better position than some sports because it can survive if kept indoors. Conversely, it is vulnerable because the supply of available gladiators is diminishing with startling rapidity. As for public reaction, that will be determined today.**

The members of the fight mob have set aside most of their worries about the future to concentrate on the Angott-Stolz blood letting. It is the first opportunity they have had to quite a spell to get their hands back in the business, and most are appropriately happy. A fight in progress in the Garden is worth two planned for summer.

Accordingly, a fair-sized gallery is in prospect. Neither fighter is blessed with a gaudy reputation but both are busy boys in the ring and can whip up as much action as a bumble bee at a picnic. Unless he reads a book while he works, I believe Angott will leave the ring winner and still champion but the contest does have its points.

**The champion, as he has been billed many times before, is the great unknown among modern title-holders. Stolz, excepting his native New Jersey and a few neighboring sections in the east, is just unknown. Yet, neither has been whipped since last July—they both were beaten on the same card in Philadelphia—and that means each has something definite at stake.**

Stolz is an odd little character, in the ring or out. He is a particularly handsome and personable youngster with a great flair as a mimic. But like another famed New Jerseyite, big Jim Braddock, he seems to be perpetually tracked by real or imaginary aches and pains. At Stillman's gym, they call him the hammering hypochondriac.

**IMAGINATIVE ILLS**

Braddock tended towards such miseries as rheumatism, lumbago, sciatica, arthritis and neuralgia. Stolz, who must have a greater capacity for imagination, comes down at intervals with queer rumblings in his liver, nose, stomach and chest. He is a sucker for a cold or a sinus affliction and can whip out a pill or patent medicine bottle at the sound of a cough.

**His new manager, one Willie Ketchum, has cured Stolz of most of his miseries and the chance of winning the title has cured him of the rest. Stolz won't get another opportunity to fight a champion in a long, long while and he must make the most of those 15 rounds tonight. Accordingly, blood figures to begin splashing early.**

As for Angott, well, he is the same Angott. What he lacks in punch, color and true boxing skill he compensates for in stubbornness, strength and sheer cuteness. The latter quality can't be underrated, for it still is a cardinal rule in the manly art of self defence that a boxer can't hit what he can't see. And I don't think Stolz will see much of Angott except between rounds.

## Seven-Team Loop Organized

# Inter-Service Softball League Will Open On May 26

A new softball league consisting of seven teams and embracing various branches of the armed forces was organized at Thursday night's meeting of the Inter-Service Sports Council.

**The new loop is composed of No. 4 I.T.S., No. 16 E.F.T.S., No. 3 Manning Depot, Navy, R.C.M.P., Navy School and A.O.T.S.**

Fred Yeomans of the Y.M.C.A., has been asked to draw up a schedule for the season, but the council at last night's meeting set Tuesday, May 26, as the opening date.

All of the teams have suitable home diamonds available and these will be used for league games, there being no necessity of securing other accommodation.

It was not decided how many games the schedule will provide for, this matter being left in the hands of Mr. Yeomans and the committee, but it is understood a full season's program is planned.

Sub-Lieut. W. B. Duffield, of the R.C.N.V.R., was last night elected as the new chairman of Inter-Service Sports Council. He takes the position formerly held by Flying Officer A. B. Laithwaite, who recently resigned. The previous chairman has held that office ever since the formation of the council last year.

## SPORTS BULLETIN

### He Hits 'Em

Arky Vaughan says the ball is there to be hit and usually proves it. The former Pittsburgher has been a big help this year to the Dodger power-house and although a left-handed hitter, has been consistently batting well against side-wheelers.

# Vaughan Bolsters Dodgers; Does It Naturally And Easily

By HARRY GRAYSON

NEW YORK, May 15.—Brooklyn considers the trade that brought Floyd Ellis Vaughan to Ebbets Field the best one made by Larry MacPhail since he undertook the task of taking the Dodgers out of the red.

**The Flatbush Fusiliers gave up Hot Potato Hamlin, Bilmp Phelps, Pete Coscarart and Jimmy Wasdell, but what they yielded in quantity Arky Vaughan more than makes up in sheer quality.**

Vaughan so quickly adjusted himself to third base that his new teammates soon dubbed him "Octopus." The Californian acts like a bloke who belonged at the far turn all his life, instead of at shortstop, where he performed for Pittsburgh for 10 years.

Vaughan already has caught the Gowanus spirit of squawking about close decisions going against him.

In Vaughan, Pete Reiser sees his principal competition in the race for another National League batting championship.

**ARKY, LIKE DIMAGGIO, HAS A NATURAL GRACE**

Vaughan is one of those natural ball players who does things the easy way.

Joe DiMaggio represents this type to the greatest degree. The Yankee Clipper has so much ability, grace and rhythm that he makes the entire thing appear very simple.

Dolph Camilli and Billy Herman of the Dodgers and Stanley Hack of the Cubs are in this class.

Joe Gordon of the Yankees is very smooth for a chap with such a sweeping range. Dixie Walker of the Dodgers doesn't over-exert himself, perhaps to a fault.

On the other hand, there is the rip and tear ball player.

Pete Reiser is in this group. The St. Louis kid really excels in scaling the heights, much like Pepper Martin of the Gas House Gang and happy memory.

Joe Moore was held together by adhesive tape, so tough did his work with the Giants come. Lou Boudreau, boy manager of the Indians, is a get-in-there-and-dig ball player. So were Goose Goslin and Hank Greenberg.

**CRONIN, ROLFE GOT TO TOP HARD WAY**

Joe Cronin at the outset of his brilliant career did little naturally or instinctively. The Red Sox strategist got there the hard way.

Red Rolfe of the Yankees is another who rips himself up.

Rolfe is still consulting specialists about his colitis, by the way, and Joe McCarthy wishes he were in shape to play third base. That would enable Manager McCarthy to shift Gerry Priddy to first.

McCarthy believes it will be quite a while before baseball sees another rumber two hitter as capable as Rolfe.

The Dartmouth alumnus was foxy at the dish. He always worried the pitcher. He could hit behind a runner, bunt and drag the ball and had a sharp eye. He hit a long ball.

Like Joe Cronin, Red Rolfe is a striking example of the manufactured ball player.

Of the prison inmates of Nevada, only 7 per cent. are natives of the state.

## Vince DiMaggio's Arm Is Fish Story

PITTSBURGH, May 15—Vince DiMaggio, Pittsburgh centrefielder, is rated by many as the finest throwing outfielder in baseball. The eldest of the DiMaggio clan developed the muscles of his good right arm hauling fish out of San Francisco Bay. Puppy DiMaggio was a professional fisherman, Vince his chief assistant. When they were biting, this often entailed 72 hours at a stretch with only slight pauses for nourishment.

There are 7,500 parts in the modern steam locomotive.

## Lightweight Title At Stake

# Angott Favored To Beat Stolz

NEW YORK, May 15—(AP)—The bettors finally have decided it's about this time they stopped giving Sammy Angott the "brush-off."

This practice of cold-shouldering the dark little man from Louisville and Washington (Pa.) has cost them quite a bit in the last few years.

As a result, they've installed Sammy a 1-to-2 favorite to make the first defence of his world lightweight title a successful one at 10 p.m. E.D.T. (8 p.m., M.D.T.) tonight in Madison Square Garden against the classy Newark boxer, Allie Stolz. Promoter Mike Jacobs anticipates a crowd of 15,000.

In Stolz, Angott meets not only the best boxer among the little men since Lou Ambers decided he'd had enough, but the Jerseyan also is rated among the better belters in the division, especially with a right hand. Veteran lightweight experts, such as ex-Champs Frank Erne and Al Singer, pick him to win.

This corner take Allie to take the title by a decision over the 15-round route.

"—of course, that's the chance you take . . . either winning the beauty contest or going to jail!"

# Manning Depot Stopped By Young

Centrals moved into leadership of the Senior Men's Softball League when they defeated the highly rated Manning Depot team at Kingsway Park on Thursday night by a 9-6 count.

**It was chucker Al Young who was chiefly responsible for turning back the airmen. At was really burning them over and he permitted only six hits. He struck out 11 and was very stingy with passes, just handing out one.**

Herb McDonald did not appear to be working as smoothly as he did in Tuesday's game against Aircraft Repair, but he whiffed seven. He issued three free tickets to first.

In spite of the fact that each team made a goodly number of errors, there was plenty of smart fielding, despite the weather. While the errors are usually quite objectionable, the whole story was told. Thursday night was more suited to another very popular Canadian game which is not played in either spring, summer or fall—at least it shouldn't be.

Each club pulled off a neat double. Centrals getting their's in the second to shut off a rally and Manning Depot coming through with a fast two-way killing which ended a four-run splurge.

Centrals started off with three runs in the third, hits by Al Young, Roag, McBeth and Dick Noon, plus an error, a fielder's choice and a passed ball doing the trick.

Manning Depot came back with a pair in the fifth to offset a brace scored by the Centrals in the same inning, but the latter added four more in the sixth to sew up the game.

It was in the sixth that Stan Bartoshe hit into the double, the play being Ray Neil to Bill La Roque to Gordon Gilkes.

The Airmen made their biggest bid in the eighth, four runs coming in on hits by Webber, Gilkes, two errors and a walk.

The fielding feature of the game was McBeth's running catch of a drive by La Roque in the seventh.

## Noble And Almas Win Novelty Shoot

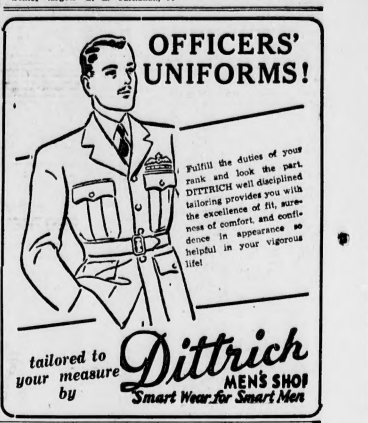

Keen interest is being shown in the novelty competitions conducted by the Greater Edmonton Rifle Association. Winners for the past two weeks were J. E. Noble and C. W. Almas.

In last week's competition E. Shoening and H. Wilson tied for second place, Mr. Wilson winning the shoot-off.

A large-scale merchandise and novelty shoot for members and their friends will be held on Friday, May 22.

Scores for last week were as follows:

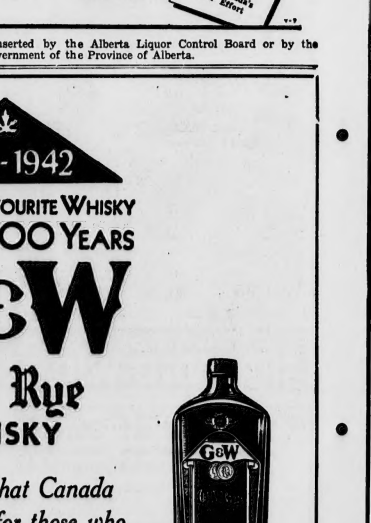

Prone—R. Price, 100-100; J. Siephenson, 100-100; Mrs. A. May, 99; C. W. Almas, 99-100; B. Morris, 96-

## Flatbushers Take To Portsiders

# Southpaw Pitching Fails Against Brooklyn Dodgers

BROOKLYN, May 15.—(AP)—Brooklyn Dodgers have most of their power concentrated in lefthanded batters—Dolph Camilli, Pete Reiser, Dixie Walker and Arky Vaughan—and some of their rivals figured the National League champions could be stopped this season by southpaw pitching.

**This is just one more theory that has been shattered by the Flatbush Follies, who have succeeded in beating the last five lefthanders sent against them and now have a record for the season of eight victories and five defeats by portsiders.**

Yesterday they routed the Zealandia, Sask., boy, Alden Wilkie, one of the lefties who had whipped them previously, with five runs in three innings and battled on to a 7-4 triumph over the second-place Pittsburgh Pirates.

By capturing the first session of their three-game series, the Dodgers increased their margin to 3½ games.

The raid on Wilkie started with a three-run homer by Joe Medwick in the first inning.

Pittsburgh chased Kirby Higbe, the Brooklyn starter, with one run in the first on doubles by the former Dodgers, Jim Wasdell and Babe Phelps, and two more runs in third on a single by John Barrett, an infield out and an error by Higbe, and a homer by Phelps.

Lefty Larry French came in to pitch no-hit ball for 3 1-3 innings, fanning five, and then had to quit because of a charley horse, although he received credit for his third victory without a defeat. Bob Elliott added a homer off Hugh Casey.

GIANTS BAG 10 IN EIGHTS

NEW YORK, May 15.—(AP)—New York Giants gave Cincinnati Reds a dose of their own medicine yesterday as they battered across 10 runs in the eighth inning—more than enough to give Mel Ott's men a 12-6 decision.

The Reds scored 12 runs in one inning against the Giants on the New Yorkers' recent western tour. Thursday the Reds were sailing along with a 6-2 lead, built up in the first three innings on the strength of home runs by Linus Frey and Ray Lamanno.

Then came the explosion in which Mel Ott's home run featured.

FIVE WINS FOR BILL LEE

PHILADELPHIA, May 15.—(AP)—Bill Lee racked up his fifth victory in six trips by pitching Chicago Cubs to a 5-3 National League triumph over the Phils Thursday. Lee held the Phils to seven hits, five of them in the last three innings.

Chicago drove Frank Melton out of the box in the fourth by dint of outwalking him and driving free tickets to first. They got three runs in the inning.

## Night Baseball For New York To Be Settled Soon

NEW YORK, May 15—(AP)—The Giants and Dodgers expect Mayor La Guardia to give a definite "yes" or "no" for night baseball next Sunday. . . . The lights at both the Polo Grounds and Ebbets Field were turned on for a test Tuesday night while officials watched from a coast guard cutter. . . . Both ball clubs were represented in the party and although they have had no report they are hopeful.

Lew Riggs of the Dodgers is the National League's outstanding pinch hitter; in his emergency calls this season he has made nine hits, including two homers and two doubles, and batted in six runs. . . . Fred Simmons has taught Larry French how to throw a knuckle ball and the veteran left hander used it for the first time in beating St. Louis Cardinals recently. It was the acquisition of a knuckler which made a new pitcher out of Boston's Jim Tobin last year.

Joe DiMaggio has been struggling with a hitting slump but his last seven blows prior to Thursday have been five homers, a triple and a single. . . . Johnny Vander Meer has not been the Dodgers since he pitched his second no-hitter at Ebbets Field in 1938.

The Dodgers, who always have something different for the customers, now have an electric organ installed on a box back of the Brooklyn dugout at Ebbets Field. . . . Frank Frisch has found a way for the Pirates to stop slugger Johnny Mize; the Pittsburgh second baseman plays in short right field when the big fellow is at bat.

## Cricket Notes

Last Saturday the cricket season opened with a very enjoyable practice game between local players and a bunch of Old Country boys who are training at No. 2 A.O.S. It is the aim of the cricketers of this city to welcome all cricketers, especially those away from home in the armed forces. And so for this Saturday there will be another exhibition game at the Golf Links, and if enough interest is shown a game will be played on Sunday.

If cricketers turn up in enough numbers there may be two games each day. And it is hoped that the local cricketers will turn out—in larger numbers than last Saturday.

These two weeks are really for organization and it is expected that a regular schedule will be commenced about May 23rd. Now all local cricketers who are playing or merely spectators help out with refreshments; it will be appreciated.

JUNIOR CRICKET

At the present time Doug Thomson is being engaged in A.R.P. organization work, he is unable to coach any junior cricketer, but arrangements have been made and C. P. Ortner and Ralph Jones will take this work over commencing at the Golf Links next Monday, May 18.

## Hockey Players Join Army Today

REGINA, May 15—(CP)—Four well known Saskatchewan hockey players, five of them National Leaguers, will report to the army here today. All have passed medical examination.

Heading the foursome is Don Metz, of Wilcox, who played sparkling hockey as Toronto Maple Leafs went on to win the Stanley cup last month. The other N.H.L. player is Murray Armstrong, of Regina, who plays centre for Brooklyn Americans.

Vince Germann, who played at Philadelphia and Hershey in the American Hockey league before returning to perform for Regina Rangers and Calgary Stampeders last winter, is the third and the fourth is Bill (Red) Tilson, winger with New York Rovers. He is the older of the Reg Tilsons, the other starring as a junior with Oshawa last season.

"Big Hosses" Enter Inaugural

# Racing Season Opens At Chinook Park On Saturday

CALGARY, May 15—(CP)—Nine "name" horses have been nominated for Saturday's inaugural handicap at Chinook Park, feature of the first day's racing in Canada this year.

**When entries for the six-furlong event, which highlights the opening program, closed Thursday night, presiding steward and racing secretary, George W. Schilling, announced that a top-flight array had asked for weights.**

Probable starters are Patage, Pomkee, Chief Richie, Mickey's Best, Sunnypark, Destrier, Contributor, Tellus and My Feng.

Pomkee and Mickey's Best are slated to run as the Fort Garry stable entry with Tellus and Contributor running in the silks of the J-M stable.

The inaugural highlights a seven-race program, which gets under way at the mile plant, six miles south of the city, at 2.30 o'clock. Entries for the other races on the card will be taken Friday morning and capacity fields are expected in every event.

Racing officials announced today that a fine group of riders are on hand. They are: G. L. Smith, H. McGahan, A. Haller, F. Solomon, J. Hruschak, H. Russell, A. Holliday, J. Craigmyle, G. Godley, A. Barcroft, E. Neal, D. Allen, E. Roy, D. Godley, W. Beard, A. Murtha and J. Sevewright. Several other boys are expected to check-in before the meeting opens.

## Guilty Robbery: Sentence Held Until May 26

**Donald Lee Smith, Kinistino, Sask., was found guilty in supreme court Friday by Mr. Justice G. B. O'Connor on a charge of robbery with violence and was remanded until Tuesday, May 26, for sentence.**

Evidence disclosed at the trial was that the accused, in company with a man named Wilson, participated in robbing Ila Sivichy, aged Setna Beach farmer, of $110 on March 9 last.

The three men had been drinking in a downtown beer parlor, and while moving from one beverage room to another Sivichy mixed his money. He had previously cashed a cheque for $110, the accused helping him in the cashing of the cheque.

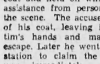

Sivichy accused Wilson of taking his money. Wilson immediately fled, and when the old man started to run after him, the accused tripped him, and also beat him about the head and face.

Sivichy grabbed the accused's coat and held on while calling for assistance from persons rushing to the scene. The accused slipped out of his coat, leaving it in his victim's hands and made good his escape. Later he went to the police station to claim the clothing. He was immediately arrested and charged with robbery with violence.

## Reserve Army Reservoir For Active Forces

**Units of the Canadian Army (Reserve) in Alberta have provided nearly 8,000 officers and other ranks to the active armed forces since war was declared on Sept. 10, 1939, up to the present date, according to figures released today by Military District 13.**

Edmonton's two largest Reserve Army units have played leading roles as "feeders" for the Active Army. The 2nd Battalions of the Edmonton Fusiliers and the Edmonton Regiment together have sent 82 officers and 1,134 other ranks to active service units.

The 2nd Battalion of the Fusiliers has had 81 officers and 820 other ranks transfer to active service while 31 officers and 314 other ranks have transferred to the active forces from the 2nd Battalion of the Edmonton Regiment.

**ACTUAL FIGURES**

Actually the reserve units of the province have provided 568 officers and 7,230 other ranks or a total of 7,798 for active duty with the active forces. Many of those who went from the Reserve Army to the active forces as privates have since been commissioned and the majority of these officers and other ranks are now serving overseas.

**BY UNITS**

Following are the complete figures, showing the number of officers and other ranks provided by each of the Reserve units in M.D. No. 13, for active service in the navy, army and air force:

Second 91st Field Battery, R.C.A., 8 officers and 64 other ranks; Petrol Park 2nd Corps Troops, R.C.A.S.C., 11 officers and 206 other ranks; 13th District Signals, R.C.C.S., 28, 525; 2/23rd Field Battery, R.C.A., 6, 46; 19th Field Battery, R.C.A., 92, 475; 2/22nd Field Battery, 4, 77; 2nd Bn. Edmonton Fusiliers, 31, 620; No. 1 Army Ordnance Workshop, 8, 320; 4th Casualty Clearing Station, R.C.A.M.C., 6, 45; 13th Fd. Hygiene Section, R.C.A.M.C., 7, 66; 14th Army Tank Bn. (Calgary Regiment), 61, 786; 2nd Bn. South Alberta Regiment, 43, 390; 93rd Field Battery, R.C.A., 11, 120; No. 3 Div. Ordnance Field Park, 10, 96; 13th Field Company, R.C.E., 6, 61; 2/20th Field Battery, 12, 81; 18th Field Brigade, R.C.A., 38, 435; 2nd Bn. ## Cycle Crashes Car Youth Is Injured

Graham Coles, 19, 8330 88 avenue, was admitted to hospital as the result of an accident involving a car and his bicycle, at the foot of McDougall hill, at 6:55 p.m. on Thursday.

Coles is alleged to have crashed into a car operated by Constable D. Waldie, R.C.M.P., who was beginning to turn south on 101 street after crossing the Low Level bridge and approaching the foot of McDougall hill to the 101 street intersection.

Coles was coasting down the hill allegedly at a high rate of speed and in attempting to make the turn at the foot of the hill, crashed into Waldie's car.

Coles was thrown heavily to the pavement and suffered a severely bruised shoulder and shock. He was taken to the Royal Alexandra hospital in a Jack Hays' ambulance and remained there the night. An X-ray revealed that there were no shoulder fractures.

Dr. J. F. Brander attended the patient.

## Takes Over

**Wesley Plummer, who has** arrived in Edmonton from Saskatoon, to assume duties as manager of the ready-to-wear department of the Hudson's Bay Company store in Edmonton. He has been with the company since 1931, and was in the city store from 1936 to 1939.

## Hudson's Bay Co. Official Arrives

Wesley Plummer, recently arrived from Saskatoon, has assumed his new duties as manager of the ready-to-wear department of the Hudson's Bay company store in this city.

Mr. Plummer is no stranger to Edmonton. It was here that he first joined the company's service in 1931. Later he was transferred to the Calgary store. From 1936 to 1939 he was back again in Edmonton and during the last three years has been in charge of the women's wear sections in the company's store in Saskatoon.

During the 11 years Mr. Plummer has been with the Hudson's Bay company he has gained valuable experience in various branches of the retail trade, more particularly in the fashion departments.

Both Mr. and Mrs. Plummer, who are well known in musical circles in Edmonton, distinguished themselves at one time and another in musical festival competitions. Some years ago, Mrs. Plummer, as Jessie McCloy, was gold medallist at the Edmonton music festival and on the same occasion Mr. Plummer was the winner of the baritone class.

Mrs. Plummer, with her two children, will arrive in Edmonton this week-end.

## Getting Around
### with Jack DeLong

P.M., that super-inquisitive little New York tabloid, now charges that big oil trusts are trying to prevent production of synthetic rubber from grain alcohol.

**The fight of the oil and alcohol trusts takes the form of a bill to permit suspension of anti-trust laws by war production heads without consultation with the attorney general.**

P.M. claims the trusts are attempting to halt production of vitally needed rubber from grain, despite the fact Agriculture Secretary Wickard recently declared scientific experiments under supervision of his department has shown the quickest way to make synthetic rubber with a minimum of critical materials is to make it from grain alcohol.

And Wickard pointed to the fact there would be a carry-over of 630,000,000 bushels of wheat in the U.S. this year. He said 80,000,000 bushels of wheat or corn would make 240,000 tons of synthetic rubber. This was about the volume that could be obtained through existing distilling plants.

The P.M. article lists the following reasons for the alleged at-

## Aldermen Near Blows In Violent Verbal Exchange On Street Railway Issue

Heated verbal exchanges between Ald. F. J. Mitchell and Ald. Guy Patterson, K.C., featured the city council's transportation committee meeting Wednesday afternoon during the discussion of Ald. Mitchell's motion that street railway fares be increased from five to four tickets for 25 cents.

**The flare-up came when Ald. Mitchell accused Ald. Patterson of "putting words into his mouth that he would not dream of uttering." For several minutes the aldermen exchanged a veritable barrage of accusation and counter accusation, the battle being finally halted when Ald. C. E. Garlepy, chairman of the committee, suggested that "the present phase of the argument could usefully be adjourned."**

So torrid were the exchanges between the two aldermen that they nearly came to blows, and in one exchange a challenge was flung which was speedily accepted. However tempers cooled off and the business of the meeting was proceeded with without any further incident.

Ald. Patterson, although not a member of the committee, attended the meeting in his capacity as alderman and participated in the discussion.

**MOTION DEFEATED**

The Mitchell motion to increase the fares from five to four for 25 cents was defeated when Mayor John W. Fry and Ald. H. D. Ainlay voted against it. Alderman Garlepy

## Police Report "Peeping Toms" Believed Busy

**Peeping Toms are on the prowl again, according to two complaints received on Friday by Chief Constable A. G. Shute.**

Mrs. R. W. Butler, 10623 100 St., reported that she saw a man dashing across the neighboring lawn at 11.20 p.m. Thursday and as she approached her home from the car-line he lay down on the sidewalk in front of her home.

Upon inquiring, she was informed that he had been injured and would like some aid. As Mrs. Butler rushed to her home to summon her husband the quick-thinking character vanished.

Further investigation revealed that the man had been peeping through the windows and it is assumed that he "played sick" in an effort to get away without suspicion of his behavior.

**ANOTHER REPORT**

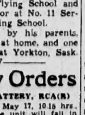

Another report came from the home of M. Provencher, 11028 83 street, stating that both Mr. and Mrs. Provencher saw a man looking into a window as they were sitting in one of the rooms of their home.

In neither case were the complainants able to give a clear description of the man but Mrs. Butler stated that the one found near her premises was hatless, young and was wearing white trousers or was in his underwear.

## Air Crash Victim Is Buried Here

Victim of a plane crash Monday near Yorkton, Sask., Flt. Sgt. James Stanley Martin, son of Mr. and Mrs. George E. Martin of 11001 81 avenue, was buried with full honors on Thursday afternoon.

Martin

Escort and firing parties from No. 4 Initial Training School attended the funeral and placed beside the flag-draped coffin a flower-mount cemetery, where burial took place in the air force cemetery.

Services were conducted at Andrews' funeral chapel by Flt. Lt. McLean and Capt. Robert Pearson. Pallbearers and honorary pallbearers were airmen.

Flt. Sgt. Martin was a graduate of the Uplands Flying School and had been instructor at No. 11 Service Flying Training School.

He is survived by his parents, one sister, Helen, at home, and one brother, Donald, at Yorkton, Sask.

Information about the army is often as valuable to the enemy as guns and ammunition: don't help to arm him.

## Chief Warden

**Capt. A. J. Huff, chief air** raid warden for this city and chairman of the Air Raid Precautions Committee. He will attend a meeting at the assembly hall of Garneau school, 109 street and 86 avenue, at 8 p.m. on Friday when sound films will be shown from Great Britain and the United States depicting conditions under blitz attacks. Men of the South Edmonton Veterans' Volunteer Reserve, Wardens of the South Edmonton area and the general public are invited to attend.

## The Inquiring Reporter

**THE QUESTION**

The great battle of the Coral Sea in which the havies of the United Nations sank at least nine Japanese warships and 12 other vessels inspired the Inquiring Reporter to seek opinion of the significance of this Allied victory.

**THE ANSWERS**

**GERALD O'CONNOR, K.C., barrister:** The battle of the Coral Sea is still too recent to assess its full significance, but certain conclusions stare one in the face. There is no doubt that the Japanese navy has suffered a terrific blow—a blow from which it will not speedily recover. The balance of naval power in the Pacific may not have been entirely restored, but at least Japan's superiority has been reduced to a much narrower margin.

* * *

**FRED DOUGLAS, salesman:** This battle was the first of the great tests of strength between the United States and the Japanese fleets for command of the Pacific. It is the struggle for which Admiral Yamomoto, hater of everything American, has been waiting for years and it may well mark the beginning of Japan's decline as a great naval power.

* * *

**ALD. SIDNEY BOWCOTT, returned soldier:** The Japanese, in the Coral Sea battle, attempted to gain control of the Solomon Islands to be used as a base of operations against the sea routes to Australia. The fleet that has been destroyed was on that mission. Its destruction will make more difficult the already stupendous task which Tokyo must face of maintaining a steady flow of shipping between Japan and the regions which she now controls in Australasia, and will remove for the time being at least the threat to the ever increasing American convoys of munitions and troops arriving in Australia.

## Council Considers Airport Tenders

Tenders for the general construction of the administration building at Edmonton's airport will be considered at a special meeting of the city council to be held Friday afternoon at 5.15 o'clock.

The tender of the Poole Construction Company at $49,040 is recommended for acceptance by John Martland, city architect, and also that of C. B. Frost for $11,810 for plumbing and heating. The tenders for the electrical work in the building will be opened at the council meeting.

There were four tenderers for the general construction work, and five for the plumbing and heating. The lowest tender in each case has been recommended.

## Restrictions On Deliveries By Wholesalers

**Effective next Monday deliveries to retail stores by wholesalers of groceries, fruits and tobaccos, will be restricted to three deliveries a week in Edmonton's business area, and two a week in outlying regions.**

This was the decision reached by representatives from seven city wholesale firms, four fruit houses and four wholesale tobacco establishments, working in co-operation with J. Gordon Wilson, highway transport representative of the Wartime Prices and Trade Board.

**FIVE ZONES**

The wholesalers divided the city into five zones, with retailers in four of them entitled to not more than two deliveries a week.

In zone A, which covers the business section of the city from 127 street in the west to 86 street in the east, and from 118 avenue to 82 avenue, excluding residential areas, deliveries will be permitted thrice weekly.

Delivery of fresh fruits and fresh vegetables will be confined in the other four zones on alternate days.

**CLOSING HOURS**

The firms also announced that warehouses will be closed between 12 noon and 1 p.m. Monday to Friday, inclusive, and that the last delivery Saturday is to be made not later than 1 p.m.

Retailers are being requested to co-operate in this conservation effort by ordering sufficient quantities between deliveries and by ordering at least three hours before delivery departure. They are further asked to check with their own wholesalers to determine the specific date and hour of delivery.

## Varied Cases On Docket Of Criminal Court

**One murder, three manslaughter and two dangerous driving charges are listed for hearing at the May sitting of the criminal court which open at the court house on Monday morning. Eleven cases are listed on the docket, Mr. Justice S. J. Shepherd will preside during the first week of the sitting.**

Manslaughter charges will be answered by Alvin Keith Craig, Edson, John B. McCarthy, Edmonton, and John F. DePrain, Ellerslie. All charges arise out of motor car accidents in which persons died from injuries received in the accident.

Pierre Cougan, Janverin reserve treaty Indian will go on trial for the third time on a charge of murdering his wife, Mary Cougan. At two trials last year the jury failed to agree upon a verdict.

**VARIED CASES**

Irene Thomas, Edmonton, will face a charge of theft from the person of John J. Jackson, Mike Rozdrowski, Edmonton, a charge of creating a public mischief, and William Petry, Edmonton, an abortion charge.

The dangerous driving charges are against Kenneth J. Gerrie, and J. W. Moore, both of Edmonton. Gerrie was found guilty on the charge in December, 1941, and comes to court on Monday for sentence.

Mike Kozak, Hondo, faces an attempted rape charge, and Arthur Romie, Edmonton, a charge of obtaining an automobile, valued at $675, by false pretences.

# War Is Chance To Choose Mates Wisely

## Mixing Up the Youth of the Land Expands Their Matrimonial Horizon; This Is the Silver Lining of Battle Clouds

Dorothy Dix

A bit of the silver lining of the war cloud is that it will give the young people of the country a better opportunity than they have ever had before to make a discriminating choice of their mates. Heretofore the boys and girls have been mostly limited in the pick of their wives and husbands by their environment. Tommy had to marry Susie because she was the girl next door, and Marybelle was predestined to go to the altar with John because they had made mud pies together and graduated from the same class in High.

But now, with the boys being all scrambled up together in the army and being continually shifted from one camp to another, it is a different story.

Probably when Jack Canuck started out to organize his defence forces he had no intention of becoming a match-maker, but you can see with half an eye how enormously this mixing up of the youth of the land expands their matrimonial horizon, and how much better chance it gives them of getting their hearts' desire in a life partner. For now they do not have to take what they can get. They look 'em all over and select the ones that hit their fancies.

It is folly to deny that, taking them as they come, all husbands and wives are pretty much cut off the same bolt of cloth, and whether they are from the North or the South or the East or the West they average up about the same as to faults and virtues. But, for all of that, husbands and wives do differ from each other as one star differs from another star in glory, and it is the unique opportunity to compare the specimens produced by the different sections of our fair land that the youngsters of today are privileged to enjoy. And I hope to goodness they appreciate their blessings.

### FOUR TYPES OF MATES

Let us consider the four types of males among whom our boys and girls will be able to pick and choose. Let us begin with the Northern man who always has a fatal fascination for the Southern girl because he represents the big, strong, silent hero of fiction, who is ice without and a seething volcano within, of whom she has read but never met.

Used to the facile love-making of the boys she has grown up with, she takes his dumbness as a sign of deep feeling, and it is only after she has worn herself to a frazzle trying to make an impression upon him that she realizes that he is granite all the way through. Generally speaking—there are exceptions, of course, to every rule—the Northern man has more backbone than heart. He is a good provider and makes a better husband than he does a lover.

**Pretty much the same thing may be said about the Northern girl, she is pretty and intelligent and chic and knows her way about, she is industrious and frugal, a meticulous housekeeper, and she will help her husband to make a fortune or get into the Senate, but she doesn't baby him or flatter him, and if a Southern man marries her he had just as well make up his mind to live on cold bread, the balance of his life.**

The Eastern man and woman are irresistibly alluring to the young inhabitants of the South and West. They are sophisticated, worldly wise; they represent all that ever went with evening dress, as Mr Kipling used to say. Maud Muller is always flattered when an Eastern gala chaps her, but she had better watch her step because his attentions are generally without intentions. He is a good playboy, but when the regiment marches on he is more apt to say "please to have met you" than "will you wait for me?"

### GELATIN TRICK

If you have gelatin left over from the day before, for sake of variety on the new serving, try whipping the gelatin until frothy, then folding in whipped or ice cream. Chopped nuts or fruits will add further taste and eye appeal.

# Minute Make-Ups

5-15

False hair is having a great vogue. And it's easy to do exciting things in a minute with a false braid. Plait it and entwine it with ribbons for a quick and gala change. Twist it into a figure eight pinned low at the back of the neck. Swirl it around the front of the hair, turban fashion. Fasten with big shell hairpins or tiny jeweled pins. A smart effect! True, it's false, but it's pretty!

## Good Manners Help You Win Friends

Avoid Errors In Public

"What can you expect of people who don't know that the girl should enter the row first," the Browns sigh as Bob and Jane charge into their seats at the theatre. And Bob and Jane would like to know the well-bred young Browns better.

Such points of etiquette are simple enough to learn. On a double date at the movies one man enters the row first, the two girls next, the other man last.

At dances—crude for a man to ask a girl, "Have you got this dance taken?" But smooth and correct is "Shall we dance this?" Nor does a well-bred girl make herself conspicuous by walking across the dance floor alone, but asks her escort to take her.

Very formal parties with a receiving line? No hesitations when you know it's proper for the girl to precede the man down the line, introduce herself and her escort to the person at the head.

"Have better times, win new friends by knowing fine points of etiquette. Our 32-page booklet explains mannery for movies, dancing, formal parties, other occasions. Gives pointers on introductions, correct dress, good form at games.

In today's hand East restrained himself from bidding on the first round in the hope that North and South would get too high. When they dropped to two spades, he decided to re-open, as his side might have a makable part score. But I don't know where he found his redouble of three hearts, since West might have a complete bust.

North opened the king of diamonds, dropping his partner's queen. He rashed two more diamonds, then made a clever switch to spades. He was in no rush to lead the fourth diamond, as he could see that South's opening bid must have been made on the two major aces. South took the ace of spades and returned the suit.

A trump was led from dummy, South put the ace right up and led a third spade for North to ruff. Then North led the fourth diamond and South's queen of trumps

# Strawberries Used In Varied, Tasty Desserts

By MRS. GAYNOR MADDOX

Strawberries will dress up your menus. And they are plentiful and cheap now.

### STRAWBERRY MOUSSE

(Serves 6)

One cup crushed strawberries, ½ cup sugar, 2 tbarpoons lemon juice, 1 teaspoon gelatin, 1 tablespoon cold water, 1 cup cream.

Mash the strawberries thoroughly, or rub them through a sieve. Add the lemon juice and sugar and stir until the sugar is dissolved. Soften the gelatin in cold water and dissolve it by heating in a pan of boiling water. Add the gelatin to the strawberry mixture. Chill. Fold in the cream which has been whipped until stiff. Freeze in a mechanical refrigerator or turn into mold, cover lightly, and pack in ice and salt.

### SPRING FRUIT MARMALADE

(Serves 4 to 6)

Two cups shredded pineapple, 4 cups strawberries, 2 cups chopped rhubarb, 5 cups sugar.

Cook pineapple in its own juice for 10 minutes. Wash and hull strawberries. Add berries and rhubarb to pineapple and boil for 10 minutes. Sift in sugar and simmer, stirring almost constantly to prevent sticking, for about 25 minutes, or until juice jellies from a spoon. Turn into sterilized glasses and when cold cover with paraffin.

### STRAWBERRY WHIPPED CREAM PIE

(Serves 4 to 6)

One cup 40 per cent cream, 3 tablespoons confectioners' sugar, 1 teaspoon vanilla, 4 cups whole fresh strawberries, cleaned and hulled; 1 cup strawberry glace, 1 baked pie shell.

Whip cream, adding sugar and vanilla. Spread in pie shell. Cover with layer of sliced fresh berries or whole berries. Glaze berries with following sauce.

### GLACE SAUCE

One cup strawberries, ½ cup sugar, 1½ cups corn syrup, 1-3 cup water, 3 tablespoons cornstarch dissolved in 3 tablespoons water.

Boil sugar, corn syrup and water together. Add strawberry and cornstarch. Cook 6 to 8 minutes. Strain through fine sieve, and pour over strawberries. Chill before serving.

### Sunday's Menu

BREAKFAST: Orange juice, crisp bacon, cornbread, jam, coffee, milk.

DINNER: Roast stuffed chicken, giblet gravy, brown rice, new peas, strawberry whipped cream pie, coffee, milk.

SUPPER: Cold chicken, cabbage apple and celery salad, hot biscuits, honey layer cake, tea, milk.

### COTTON WEDDING GOWNS

Advance showing of summer bridal fashions stress importance of sheer cottons for the wedding gown.

A New York shop, for instance, shows a charming gown of crisp, very fine wale cotton pique with a deep yoke and wide skirt flounce of sheerest organdy. Both flounce and yoke are outlined with a narrow organdy ruching—a flattering and feminine touch to the otherwise utter simplicity of the design.

# What To Do

Instead of concentrating on "being different," why not try to bring out the best in yourself? It's very easy to adopt a few peculiarities and get people to talk about you. But it isn't so easy to develop a really winning personality and have them say nice things about you.

There are many people who glory in being eccentric, believing they are making a name for themselves. Of course, quite obviously, what they are doing is attracting unfavorable attention. If you want people to like you, be yourself. Don't act oddly or dress oddly, because instinctively people shy away from "different" actions in others.

Just be a "regular fellow," sane and sensible, and the people you meet cannot help liking you.

### SPONGE CAKE

**Mrs. Cora T. Casselman, Liberal M.P. for East Edmonton, who presided as chairman of the committee of the whole in the House of Commons Thursday. This was the first time in the history of the Canadian government that a woman has acted in this capacity.**

## Mrs. Casselman Is Chairman Of Committee Of The Whole In House Of Commons Thursday

*OTTAWA, May 15.—(CP)—Mrs. Cora Casselman (Lib., Edmonton East) made Air Minister Power toe the parliamentary line in the House of Commons yesterday when she presided as chairman of the committee of the whole.*

When Mrs. Casselman took the chair she was congratulated by Prime Minister Mackenzie King and Conservative House Leader Hanson.

Subsequently, Mrs. Casselman called on Maj. Power to withdraw a statement. The incident came after an exchange between Maj. Power and Angus MacInnis (C.C.F., Vancouver East). Mr. MacInnis asked the air minister to withdraw what he termed "an imputation."

"It is a statement of fact," said Maj. Power.

Mrs. Casselman then asked Maj. Power to withdraw.

The air minister proceeded: "This is indeed an historic occasion. First, I withdraw. I must say that in a long career in this house I have rarely been called to order. And I have never been called to order in a manner which I appreciate so much as I do in this case. . . ."

She took the chair as W. A. Fraser (Lib., Northumberland) was speaking and a burst of applause interrupted proceedings.

**IS CONGRATULATED**

Prime Minister Mackenzie King apologized for interrupting Mr. Fraser to congratulate Mrs. Casselman on "occupying the seat of chairman of the committee for the first time in the history of this house."

Mrs. Casselman rose and bowed.

Conservative house leader Hanson added his congratulations and Mrs. Casselman bowed again.

## U. Of A. Women Graduands To Graduate In Many Facualties

WOMEN graduands at the University of Alberta this year will graduate in almost every faculty except Applied Science at the Convocation exercises on Tuesday. During the afternoon co-eds will be given degrees in commerce, in education, in household economics, and in nursing. The exercises will be held in McDougall United church.

Two co-eds who have their Bachelor of Arts degrees will be awarded their Masters of Arts degrees. They are Miss Mary Elizabeth Frost and Miss Isabel Landels.

Among the co-eds receiving their Bachelor of Arts degrees will be Miss Beth Kerr, who will return to the university in the fall to enroll in the Faculty of Education. During next year Miss Kerr will be president of the Wauneita Society. Miss Kerr has been a member of the English club at the university and she also belongs to the Blue Stocking club and Pi Beta Phi fraternity.

**COMMERCE GRADUANDS**

Three co-eds will graduate with their Bachelor of Science degrees in Commerce. They are Miss Betty Towerton, Miss Bertha Pehrson and Miss Shirley Campbell. Miss Towerton is the daughter of Major J. H. Towerton, Currie Barracks, Calgary and Mrs. Towerton of Edmonton, and has been very active with the Philharmonic Society at the University, having taken part in the productions three years and this year filling the position of vice-president of that society. She was a member of the Commerce club and has been secretary-treasurer of the Women's Economic club for the past two years. Plans for her future start in a chartered accountant's office in view of doing her article for her chartered accountancy.

In the Faculty of Education six co-eds will receive their junior diplomas and ten their senior diplomas among them Miss Jean Hutchinson and Miss Annette MacKenzie, both with their Bachelor of Science degrees in Household Economics; Miss Yvonne Mierner, who has her Bachelor of Arts degree; Miss Frances Norris and Miss Bessie Sidorsky who also have their Bachelor of Arts degrees.

**BACHELOR OF EDUCATION**

Among those who will receive their Bachelor of Education degrees are Miss Mary McKenzie who already has her Bachelor of Arts degree with honors in classics and her senior diploma from the Faculty of Education. Miss Doris Berry, B.A., Mrs. Harriet Flint, B.A., Mrs. Jean Evelyn MacLean, B.A., and Miss Kathleen Mary Shelton, B.A., will also receive their Bachelor of Education degrees.

Twenty-four co-eds will receive their Bachelor of Science degrees in Household Economics. Miss Ruth Rostrup has been vice-president of the Freshman class, the Junior class and the Senior class. During her three years she has been on the executive of the House Ec. Club and this year was president of the tennis club. She was chairman of the women's disciplinary committee. She is a member of Pi Beta Phi. Others graduating in House Ec. are Miss Gerdine Rowan who has been very active in sports at the University, winning several major sports awards for her swimming and badminton, and Miss Margaret Willox, who has been both secretary-treasurer and president of Women's Athletics as well as head of the canteen group of the Wauneita War Workers.

**B.Sc. IN NURSING**

After five years of intensive work, three of them spent in the University Hospital, nine co-eds will receive their Bachelor of Science degree in Nursing, on Tuesday. Outstanding among them is Miss Ruth Gilchrist, who during her student years has won several awards for outstanding academic work. Among her rewards was the Intermediate prize for proficiency and the prize for proficiency in practical work, both won in her years in the hospital. In her fourth year she had a first class general average. She has been vice-president of the B.Sc. nurses' club.

For the first time in the history of the University of Alberta several of the outstanding students were recognized by "Who's Who Among American College Students", a publication of the United States which gives a biography of the outstanding students on all the campuses in the U.S.A. Among the students this year will be the names of Miss Mary Barbara Mason, Miss Secord Jackson and Miss Ruth Gilchrist.

EASY TO RECOGNIZE

There's an unmistakable charm about this stucco home and landscaped garden with its outside barbecue stone fireplace—a retreat like a private park. It takes a large lot 75x155, fenced, to give this home its perfect setting and is located at

11632 Edinboro Road

In beautiful Windsor Park, close to University, amidst choice surroundings.

Vestibule and entrance hall opens into a spacious living room 24x15 with open fireplace. Dining room 15x13 across the hall. A glass sunporch 19x10 opens from kitchen 12x9 which has ample cupboard space. There is also a bedroom 14x13 on this floor

The upstairs contains bathroom 12x12 and two bedrooms 16x11 and 12x12

Oak floors throughout. Gas

The taxes are most reasonable

Basement contains a recreation room 27x13, also an extra bedroom 12x12

The two-car stucco garage, attached, is accessible from the sunporch.

This semi-bungalow with its beautiful flowers, trees, rock gardens, etc., represents years of care and expense and can now be purchased for one reason — and one reason only—Owner leaving city . . . and when you hear of the reasonable price we are asking for this home you will be more than amazed

# War Services Discussed By Many Groups

**Representatives of 30 organizations affiliated with the Council for the Co-ordination of Auxiliary War Services attended its first general meeting since reorganization last spring, on Wednesday evening in the Memorial hall.**

Lt.-Lt. V. C. Sutton of Calgary headquarters of the R.C.A.F., attended and expressed appreciation of the good work being done by the organizations in the fighting auxiliary services for the men at R. C. A. F. stations throughout the province.

Speaker of the evening was Ronald Martland, who explained the ramifications of the act relating to war charities. He told the meeting that it protects the contributing public from appeals which are unnecessary or overlapping or dishonest. Permits are required from the National War Services in Ottawa to make appeals, he said.

### JUNE VISIT

Announcement was made of the visit to be made to Edmonton in June by Mrs. W. E. West, director of Women's Voluntary Services of the National War Services department in Ottawa. While in the city she will confer with women volunteers in war or civilian social services, to stimulate interest in wartime projects and emergency work. The women of the council are planning a meeting at which she will speak.

### ENTERTAINMENT ARRANGED

Chairman of the War Services Entertainment Board for northern Alberta, Harold Weir reported that seven dances arranged each week and that 52 variety shows have been held since the first of the year. In addition, he said, the board is promoting sports among the troops and at the Manning Depot. He reported that the committee is making plans to have trained directors conduct group activities among the men, who are making their first adjustment to military life.

Mrs. C. V. Darre and Miss A. W. Tayler reported on the information bureau and the hospitality committee. Mrs. Tayler emphasized the need for more home hospitality for men stationed in the city.

Frank Pike, chairman of the council, presided.

# Talk By-Election At May 28 Meet

Whether or not the Alberta Farmer-Labor party (C.C.F.) will contest the Edmonton by-election made necessary through the death of D. M. Duggan, Independent group member, will be discussed at a general meeting of the party to be held at the I.O.O.F. hall on Thursday, May 28.

Decision to take early action regarding the by-election was made at a meeting of the executive held Thursday evening.

The executive also nominated the chairmen of the different committees, but these nominations are subject to ratification by the general meeting.

In Finland, the extraction of sugar from sawdust and wood waste has become industrially important.

# Indian To Face Murder Charge For Third Time

**Pierre Cobgan, Jaffverin reserve treaty Indian, twice tried in supreme court here last year on a charge of murdering his wife Mary Cougan at their Chipewyan Prairie home on Sept. 4, 1941, will come again to the bar of justice on Monday, June 1, to answer to the murder charge.**

At both trials last year the jury failed to agree upon a verdict, and following the second trial Mr. Justice G. B. O'Connor ordered the accused held in custody at Fort Saskatchewan jail until June, 1942.

In the meantime R.C.M.P. officers in the Chipewyan Prairie district have continued their investigation of the murder, and it is understood have found additional evidence. This will be place before the court at the trial which starts at the court house on June 1.

### AXE ATTACK

Cougan, it is alleged, killed his wife in a savage axe attack. In an alleged statement to the police at the time of his arrest, he said that his wife must have been kicked to death by a cow. He also gave a statement implicating a woman he is alleged to have been friendly with.

**The long adjournment of the trial was necessitated as the witnesses, most of them Indians, could not be brought to court during the winter season.**

Following the second abortive trial, the Crown, after consideration to staying proceedings against Cougan, but when the new evidence was discovered it was decided to proceed with the third trial.

J. W. McClung, K.C., crown prosecutor, who acted for the crown in the two previous trials, will prosecute the case on June 1. Cougan will be defended by Charles H. Grant, K.C., who defended him at the two previous trials.

# Temperature Drops, Gardens Badly Hit

With a drop of 22 degrees in the minimum temperature, over a 24-hour period, Edmonton had a thoroughly chilly spell on Thursday. Snow fell during the late afternoon, but the average degrees of frost during Thursday night.

Minimum temperatures during the 24-hour period prior to 10 a.m. Friday was 10 above. The forecast continues cloudy and cool.

Many gardens suffered from the frost, especially the cabbage and flowers which had already bloomed were badly nipped.

Ice covered portions of city streets. Many automobile radiators were frozen.

# Traffic Speedsters Draw Court Fines

Four motorists each were fined $15 and costs for breaking the new 40-mile speed limit on highways when they appeared before Magistrate Harold Hawe, K.C., Thursday afternoon.

The four men, Alfred Kern, Leduc; Leo Carne, Wetaskiwin; Morris Cooper, Calgary; and Ben A. Olsen, Ohaton, were checked up by R.C.M.P. traffic police on highways leading to Edmonton, during the past week and appeared at the regular R.C.M.P. traffic hearings in the city police court Thursday afternoon.

These are the first convictions here as a result of the law prohibiting speed in any part of Canada in excess of 40 miles per hour. The law came into force on May 1.

Nine other motorists were fined a total of $90 and costs for breaches of highway by-laws, called up by R.C.M.P. traffic police under the direction of Cpl. James Muir, R.C.M.P.

## Coronation Holds Parade Inspection

**CORONATION.**—With about 70 men present, Coronation Concert and Veteran detachments of the Calgary Tank Regiment, (RCA), paraded for inspection before the officer commanding, Lt.-Col. Jull. Following the inspection, Lt.-Col. Jull presented Sgt. W. L. Sharplin with a certificate qualifying him as assistant instructor. During the evening Lieut. Gerhart, M.L.A., called on Col. Jull to present, on behalf of the local unit, a gift to Sgt. J. McDougall who has joined the active service.

Canvassers in the Red Cross drive are Mrs. L. DeHainais and Mrs. A. O. Thomas and L. W. Clark, H. L. Staples, C. A. Ross, D. H. Beeching, T. McColm, H. Allenson, W. L. Sharplin, D. A. MacAlpine and A. Bernhardt. Mr. Barnhardt is chairman of the finance committee. . . .

In order to familiarize the public with recent trends in education and to receive criticism of the present high school program, a meeting was held in the high school Friday. Speakers were Mr. Liggett, supervisor of Castor division, and R. Butterfield, school principal. . . . Officials elected by the baseball club here are Gordon Stannard, treasurer; J. M. Thumlert, manager, and Ted Oatsky, captain.

Rev. J. J. Evans, rector of St. Mary's Anglican church, has accepted a call to Taber and will go there June 1. A confirmation service will be held in St. Mary's, May 28, with Rt. Rev. L. Sherman, bishop of Calgary, conducting the service.

## SIDE GLANCES - - - By Galbraith

"You're not fooling anyone with that big cigar and pair of built-up shoes—we'll get in touch with you five years from now if we need you."

## Parade Opens Rimbey Drive

**RIMBEY**—The Red Cross drive for funds here was opened by a parade in which Cubs, led by Cubmaster Carl Hewitt, Girl Guides led by Miss Mollie McLeod, as well as floats and a bicycle brigade took part. Downtown the parade halted to salute the Union Jack flying over the post office. Following the parade volunteer workers canvassed the town.

Plans for the annual sports meet here were completed at a meeting at which O. Massing presided. Percy Fordham, of division five, announced that because of the distances to be travelled and the rationing of gas a separate meet would be held in his division at Lavesta school, May 16. The Home and School Association is assisting in the preparation of the grounds.

## Thieves Enter Rimbey Store

**RIMBEY.**—Thieves entered the store of J. A. Beatty and Co. in a daylight robbery recently, taking $6 in cash and several watches valued at between $30 and $40. Shortly before the robbery took place the proprietor and Ward Wyman, a clerk, had called at the store and found everything in order. Returning to the store later, Beatty discovered the basement door broken in. R.C.M.P. at Ponoka are investigating.

## Junior Bridge Club Appoints Officer Slate

## Strong Verbal Clash During Ticket Parley

**Continued from Page Nine**

intimated that when the committee's report was being discussed in city council he would support the motion.

Following the recording of the vote Ald. Gariepy stated that those voting against the fare increase did so to "capture votes." Ald. Ainlay strongly protested against the insinuation, but Ald. Gariepy repeated the remark. He added that he would support the Mitchell motion in council, although he would have preferred to see a reduction in the general rate to 18 for $1 instead of the present 20 tickkets for $1.

**Directly the meeting was called to order Ald. Gariepy asked if it was the committee's wishes that delegations be heard. Mayor Fry immediately stated "that no useful purpose would be served by hearing delegations. Their submissions had been sent to the committee in writing." He added that he was prepared at that moment to vote on the question.**

Written protests against the fare-increase were sent in by the Edmonton Consumers' League; the Civic Progressive Association; Edmonton Federation of Community Leagues; Edmonton Constituency Social Credit Association and the McCauley Community League. Representatives of the Civic Progressive Association, the McCauley Community League and the Edmonton Constituency Social Credit Association attended the meeting.

**CARRY BUDDY**

General representation made by associations opposed to the fare increase was that such increase would be borne by the low-wage earner who was least able to meet the increase.

Ald. Mitchell urged the adoption of the four for 25 cent rate, which he said would wipe out the present deficit on the street railway system's operations.

He said that large amounts would be required for rehabilitation of the system within a very short period of years, and expressed confidence that the low wage earner would meet his responsibility in making the system a paying proposition.

**Ald. H. D. Ainlay was of the opinion that the time was not opportune to make any changes in the fare structure. He said gasoline and rubber restrictions had driven many citizens to the system for transportation facilities. "To increase the fares now," stated Ald. Ainlay, "would leave the impression the city council was endeavoring to capitalize on a situation created by the exigencies of war."**

While the committee rejected the Mitchell motion it is certain there will be a full-dress debate when it comes before the next council meeting, but there is little likelihood that the fare structure will be altered.

The committee decided to recommend to the city council that the city commissioners be given power to discontinue the bus service to the University of Alberta during the holiday period at that institution. The service during the summer school period is not to be affected by the motion however.

Plans for the proposed bus or street car service to the aircraft repair depot was discussed, and it was decided to report that all steps necessary had been taken in the light of present developments.

## Americans Give "Shirt Tails" To Help War Effort

WASHINGTON, May 15.—(CP)—Americans won't have to give the shirts off their backs to help win the war—at least not yet—but they are going to lose some of the shirt tail. The war production board got around to shortening shirts yesterday, saying that an order will be issued soon trimming shirt tails an inch or so, eliminating pockets on regular shirts and cutting down on the number of buttons.

## Leaving For Calgary

Thomas Dancer, manager of Edmonton Breweries, Ltd., left Friday evening by TCA plane for Calgary where he will attend a meeting of the Associated Breweries of Canada, Ltd.

## Getting Around

**Continued from Page Nine**

tempts to hold up production of rubber from grain:

**Fears by the oil-alcohol combines of invasion of the commercial fields by farm co-operatives as in Europe.**

**That control of the synthetic rubber field by Standard Oil and its allies would be lost.**

**Wide open competition in the field of synthetic rubber.**

**If the big oil combines are actually attempting what P.M. charges they are guilty of sabotage and should be so charged.**

The report is of particular interest to Canadians, however, by the revelation of the value of wheat as a rubber substitute. Perhaps our governments, both federal and provincial could with profit examine the methods said to have been used with success in the United States, with the view of solving surplus wheat problems and the rubber famine in one stroke.

Things never seem to be properly timed. From 1929 to 1939 we had lots of wheat and lots of rubber. The farmers couldn't sell their wheat and the public couldn't run their cars for which there were tires galore, because business conditions were bad.

Now when it seems that wheat can be used for other things than bread it may all be needed for bread and even if it is converted into rubber the general public won't benefit from it much at present.

## Concert At Otoskwan

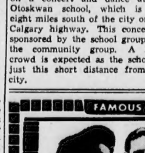

At eight-thirty p.m. on Friday the McCauley Concert Group will put on a concert and dance at the Otoskwan school, which is just eight miles south of the city on the Calgary highway. This concert is sponsored by the school group and the community group. A large crowd is expected as the school is just this short distance from the city.

## Wheat Acreage In West Is Set At 20,286,000

WINNIPEG, May 15.—(CP)—The Winnipeg Tribune in its first crop report of the year yesterday said that Western Canada's wheat acreage this season "will be lowered by only four per cent" with total acreage estimated at 20,286,000.

"Manitoba's wheat acreage is expected to total 2,173,000 acres, down 11 per cent from the total of 2,442,000 acres for 1941, while Saskatchewan's wheat acreage of 11,866,000 acres will be down only two per cent from the total of 12,217,000 acres planted last year," the newspaper said. Alberta's acreage reduction was placed at five per cent—6,157,000 acres compared with 6,481,000 in 1941.

# Man In Her Heart

## By Rob Eden

ANNE LAURIE is operating a four-horse stable for her aging father, TIM LAURIE. After dismissing her trainer, she is unable to find one. OLD DOC BURGESS, veterinarian who likes his bottle, and CEPHUS LINCOLN, aged Negro stable boy, help her. Anne is interested in PAT BARNES, reporter, and also likes RUSTY WALTON, who seems to be interested in wealthy BRENDA VAN EVERS. Rusty's best horse breaks its leg and he is forced to shoot it. He then accepts a job as trainer for the Van Evers stables and moves away from "property row" where he was Anne's neighbor. DICK COUNT, a friend of some crooks, moves in with four horses. Doc Burgess disappears and Anne receives a wire telling her Tim had a relapse. On a hunch she calls the sanatorium and finds that her father is all right and that no wire has been sent from there. Anne's horse, Moon Jade, ready for a big race, is mysteriously listed on a $2,500 claimer race. Anne storms to the steward's office, finds Doc Burgess has entered the horse.

CHAPTER XXI

"IT'S Doc's signature, all right," she admitted. "A little wobbly, but anyone who ever saw his writing would identify it. What shall I do?"

"There's nothing you can do now Miss Laurie," Webb replied, "unless Moon Jade should develop a fever or go lame or something before the race. Our rules are very strict, you know. Once a horse has been entered and the entry accepted and published, he can't be scratched except for cause."

"But isn't it sufficient cause when we tell you that it's a deliberate piece of thievery?" Rusty demanded. "It's obvious, on the face of it, that someone has paid Doc or tricked him into doing this stunt."

"The only thing I can suggest, is that you bring Burgess in here before the race," the secretary said. "If he tells us that there's something irregular about the entry, I'll put the case before the stewards and I'm quite sure they'll agree to let you scratch out of the race. Otherwise, I'm afraid Moon Jade will have to run and Miss Laurie will have to take her chances of losing him."

Almost in tears, but still angry enough to fight, Anne walked back to the stables with Rusty, discussing various methods they might use to save her horse.

**ONLY ANSWER**

"The only answer," said Rusty, at last, "is to find Doc. We've got to forget everything else and search the town for him. His name on the entry blank shows that he's not left, but is hiding out some place.

"I'll comb every joint in town, and when I do find him—"

"That's the thing that hurts almost as much as the prospect of losing Moon Jade," Anne said, "I would have stalked my life on Doc's honesty. Why I've known him ever since I was a kid and I've never known him to do a crooked thing, drunk or sober. I wonder—"

"Wonder what?"

"It's a peculiar thing, Rusty. I didn't tell you, but I got a telegram a day or so ago, supposedly from the superintendent of the sanitarium where Old Tim is staying. It said that he was in bad shape, and advised me to come immediately. I packed a bag and was about to rush off to Arizona, when I had wit enough to telephone and learned that it was a fake. Dr. Lee hadn't sent the wire, and Dad is getting along fine. Funny, isn't it?"

"Somebody wanted to get you out of town for some reason, that's certain."

"I thought at first it might have been you, playing one of your practical jokes."

"For the love of Pete, you don't think I'm so low down I'd do a thing like that to a friend, do you?"

"When I stopped to think, I realized I'd gone off half-cocked. Perhaps I owe you an apology for even thinking 'you'd pull a stunt like that!'"

"Apology accepted, but don't think such things about me, ever."

"I think I see it now, Rusty. It's all a part of the same piece. Whoever sent that telegram knew about this trick to get Moon Jade away from me and didn't want me around to spoil the set-up. Don't you see? Maybe Doc isn't to blame after all. Maybe he was forced to sign that entry, or his signature was forged. Forgers are pretty clever at that sort of thing, I've heard."

"Looks like you've got something there, but it still doesn't help unless we can prove that Doc's signature is phoney. Hold on to that telegram, though, we may need it later for evidence. I'm on my way now, to round up Doc if he's to be found in this town."

**SEARCH**

Rusty spent the rest of the day and all that night going through dives and small hotels where he thought Burgess might be hiding out. None of his cronies had seen him since he disappeared, and having nothing to go on, the trainer's job was almost an impossible one.

He visited every hospital in town, going through the emergency wards and finally wound up his search by checking the morgue. It was all wasted effort so far as uncovering the slightest trace of the old man was concerned.

Eyes bloodshot from lack of sleep and face haggard, Rusty reported to Anne the following morning—the day of the race.

"Wherever he is, he's so well hidden it would take a house-to-house canvas to find him and that would take months," he said.

The only thing I can do now is to put in a claim for Moon Jade myself, and hope that we'll be lucky. Of course, if I should get him, I'll turn him back to you for the same price, so there'll just be an exchange of checks."

"Thanks, Rusty," Ann said, sincerely. "I appreciate what you've done more than I can ever tell you. I guess I'm an awful amateur to get myself into a mess like this. You're right, I'm afraid women haven't any business around a race track. It's strictly a man's game."

"Cheer up," Rusty said, as brightly as he could. "Maybe we'll be lucky and get the horse back again. I see Pat Barnes did his bit for the cause in the paper this morning."

"Yes, I told him all about it last night and he thought that if he suggested in his column that Moon Jade must be crippled or he never would be entering in a claiming race, it would scare a lot of prospective claimants away."

"It probably will, but I'm afraid it won't scare the birds who framed this stunt. We'll just have to wait and see, unless Doc appears from nowhere before time for the race this afternoon."

## Curious World —By William Ferguson

## Debunker

There is an old American proverb to the effect that the English are a cold, reserved race of people who are hard to get acquainted with and who do not receive strangers. People who have traveled in many parts of the world say that this idea of the English is based on pure ignorance; that the English are among the most warm-hearted and most hospitable people on earth. From personal experience, the Debunker can say he has never been more warmly received anywhere than on various visits to London. The English receive visitors to their homes, clubs, schools and churches with a genuine hospitality that is hard to find anywhere else outside of America. They are anything else but cold and reserved.
